Tryco Quickly Heals Cracks Between Toes

Remarkable New Cream Kills Garm Which Causes This Hard-To-Heal Skin Disease

Tryco quickly stops that unbearable itching and pain and in a short time heals this distressing condition. Since the same germ causes Ringworm, Barber's Itch and other body itches, Tryco is an unfailing remedy in these cases also. Tryco-ptytholite—popularly called "Cracked Toe" or "Foot Mold"—is a contagious condition, as is Ringworm and Barber's Itch. Immediate attention is necessary. In cases where there is bleeding, as in the cracks between toes, there is real danger of infection—blood poisoning—and you should use TRYCO at once. Tryco Ointment is a cooling easy-to-use cream. It is also wonderful for tired, sore and burning feet. Try a tube of TRYCO today. Price \$1.00 at the Owl Drug Co. and other good dealers.—(Advertisement.)

Size Is Important

When you buy your General Electric Refrigerator you are buying for a lifetime of use. So, be doubly sure you get one large enough for future needs.

Just remember that the small sizes are for families of two or three and that if there are four or more in your household you'll surely want the new model 95.

This one is roomy yet occupies little floor space. It has food storage capacity that is not strained by week-end guests or parties. It makes available at one time 28 pounds of sparkling ice cubes. There's ample room for extra food so that you can market once a week instead of every day.

The General Electric is the modern refrigerator—"years ahead" in design and different from all others. All the

mechanism is up on top, sealed in an air-tight steel casing, forever safe from dirt, forever worry-proof.

This quiet, automatic electric refrigerator never even needs to be oiled. It plugs in as simply as a floor lamp and is economical of current. It is easy to keep clean. Radiation from the top coils causes a constant upward air current that keeps dust from settling, while the legs which raise the whole refrigerator well above the floor permit ample "broom-room" underneath.

EASY TO OWN

Seventy-two Dollars (\$72.00) places this large refrigerator in your home. The balance can be easily paid in small monthly payments. The smaller model to the left for families of two or three requires a down payment of only \$44.00.

Make this lifetime investment in healthful living. Enjoy all the conveniences which this modern electrical servant brings. Visit one of the stores listed below and actually see what a General Electric can mean to your home and family.

State Commission to Speak Plainly to Legislature

Governor Has Made Up Mind for Special Session

Date, However, Has Not Been Fixed by Young

SACRAMENTO, Aug. 13. (P)—The State Tax Commission plans to "lay all of its cards on the table" when it presents to a special session of the Legislature arguments relative to a proposed constitutional amendment on taxation of California banks and corporations, Gov. Young said today.

"I believe that the last sign of opposition to the commission's proposals has been wiped out," the Governor said. "We plan to lay all our cards on the table. I anticipate a short special session."

The Governor said he has decided definitely to call the special session, but has not set the date for it.

SEATTLE BANDITS ROB COLLECTORS ON STREET

SEATTLE (Wash.) Aug. 13. (P)—Two men today held up two collectors for the Brewster Cigar Stores in the downtown district and escaped with an amount estimated at between \$7500 and \$10,000 after a chase through crowded streets.

FARMER WAVES AMERICAN FLAG AND EXCURSION TRAIN IS SAVED

CAPE MAY COURTHOUSE (N. J.) Aug. 13. (P)—Waving an American flag over his head while his son signaled with a burlap bag, John Anklet, a farmer of Swain, today flagged a passenger train in time to save it from possible derailment.

The train, a Monday special over the Pennsylvania Railroad, carried about 300 passengers from Wildwood to Philadelphia. The heavy rain of Sunday undermined some of the ties, causing a rail on the north-bound track to buckle.

In appreciation of Anklet's warning \$105 was collected among passengers and today when commuters return to the seashore the train will be stopped at Swain and the fund presented to the farmer.

Prosecution Asked of Radio Corporation

WASHINGTON, Aug. 13. (P)—The Department of Justice was urged today by the Radio Protective Association to use as a basis for prosecution the recent declaration of the Radio Corporation of America and associated companies that modern radio communication would be destroyed if they were ordered to cancel certain cross-licenses on various patents.

The Radio Corporation and several other concerns sharing rights of numerous important patents made the declaration in their reply to a Federal Trade Commission complaint that their action constitutes a monopoly. In a statement today the Radio Protective Association said that "if anything is to be brought before the Diet at the autumn session. Semiofficial reports from Vilna state that the celebration there took place without untoward happenings."

Polish Legion Pledges Aid to Americanizing

WARSAW, Aug. 13. (P)—A promise to support any amendment to the Polish constitution proposed by the government was telegraphed to President Moscicki today by the Congress of Polish Legionnaires at Vilna. The exact scope of the plan in this respect has not been revealed; in fact, the only information has come through what have been described as "indiscretions" in the press.

The program has been given newspapers as a plan to "Americanize the constitution." The fact that the Legionnaires passed a resolution on the subject is taken as proof that the press prophesies were well founded. It is expected that the proposed amendments will be brought before the Diet at the autumn session.

Antiviral Document Will be Signed Shortly

WASHINGTON, Aug. 13. (P)—Agreement has been reached by the nations participating as original signatories to the Kellogg treaty and all instruments of ratification and adherence shall be deposited at Washington.

Secretary Kellogg announced the agreement today and as a result the fifteen powers that will sign the treaty in Paris the 27th inst., in accordance with its terms, will send to Washington documents certifying ratification by their respective constitutional requirements. The treaty will not become effective until these documents have been deposited with the Washington government.

When it goes into effect, the treaty automatically becomes open to adherence or ratification by all the other powers of the world.

Wage Increase Demand Leads to Crucial Action

Unions Turned Down Offer of Western Railroads

CLEVELAND, Aug. 13. (P)—Members of the Brotherhood of Railroad Trainmen and the Order of Railway Conductors in the western States will hold sectional meetings tomorrow to vote on a strike following the failure of attempts to arbitrate wage disagreements. A. F. Whitney, president of the trainmen, announced tonight.

The men will vote on the original demands of the union organizations for increases ranging from 10 per cent for yardmen to 18 per cent for trainmen and conductors, Whitney said.

During the recent arbitration proceedings in Chicago between the unions, a committee representing the railroads, and John Williams of the Federal Board of Mediation, an offer of a 7 1/2 per cent increase was made by the roads.

This was acceptable to the trainmen and conductors but the railroads made the offer only on condition that the union groups agree to abolish certain working rules, Whitney declared. The unions declined this offer because the working rules are considered more valuable than the increase proposed, he added.

Negotiations then were dropped and the brotherhoods prepared strike ballots, the last of which were mailed out from Chicago today.

FAKE STOCK "TIP" LISTS CIRCULATED

Commissioner in Expose of 'Dynamiters' Who Urge Worthless Securities

SAN FRANCISCO, Aug. 13. (P)—Tipster sheets, latest device of that part of the sharpshooting gentry who deal in stocks and bonds, are making their appearance in California, it was announced today by J. M. Friedlander, State Corporation Commissioner.

The pamphlets are mailed to California from New York, Boston and other cities as far west as Denver, Friedlander said, and the authors dissemble their motive by including complete and accurate information about reputable stocks. Somewhere in the literature, however, will be found favorable reference to a stock that is not well known.

"The so-called tips are 'followed up' over telephone and telegraph," Friedlander said. "The 'customer' is urged to invest immediately in the stock boosted in the publication. 'Dynamiters' (high-pressure salesmen) will roll up large telephone tolls in the attempt to land the victim."

"A report from New York says that one of these 'dynamiters' made \$75,000 in three months in commissions. The blue sky law of California does not reach these people. The best weapon is publicity."

Tunney Mum on Marriage Plans

NEW YORK, Aug. 13. (P)—Gene Tunney, retired heavyweight champion, returned here today from a visit at St. Johns Island, Me., the summer home of Miss Mary Josephine Lauder, his fiancée. He slipped into town unexpectedly on a different train from that which carried him out in Portland last night and managed to evade newspaper men awaiting his arrival.

The retired champion will sail Thursday for a walking tour through France, Germany and England with friends. At his hotel here he refused to discuss his coming marriage to Miss Lauder, explaining that he "is no longer in the public eye" and would not discuss his "private affairs."

Rumors were persistent, although Tunney would not discuss them, that his marriage to Miss Lauder might take place here before his trip abroad.

Four Convicts Escape Camps

SAN QUENTIN PRISON, Aug. 13. (P)—Four prisoners escaped from California road camps during the week-end, prison authorities here were informed today. Two of them, William Callaghan, 28 years of age, committed from San Francisco on a statutory charge, and Marion Rubb, 34 Indian, committed from Humboldt county for robbery, escaped Saturday night from the San Simon camp.

Ray A. Reed, 28, from Ventura, and Manuel Brown, 28, from San Francisco, escaped Sunday night from Camp Eleven in Lake county. Reed was committed for robbery and Brown for assault.

don't fool yourself

Since halitosis never announces itself to the victim, you simply cannot know when you have it.

Halitosis may get you fired

WHAT kind of people do employers like to have around them? Certainly not people with halitosis (unpleasant breath). You can't blame a man for firing an employee with halitosis to hire one without it.

Don't fool yourself that you never have halitosis. It's impossible for you to know when you are a victim. Don't take the chance. Keep yourself continually on the safe and polite side

by daily rinsing the mouth with Listerine, the safe antiseptic. Being a powerful disinfectant, it ends halitosis instantly. If you doubt its effectiveness, rub a little onion on your hand, then apply Listerine, clean the mouth immediately the odor is gone. Thousands who suffer from halitosis are now acceptable because of Listerine. Lambert Pharmaceutical Company, St. Louis, Mo., U.S.A.

They know the Angels who fared better than everybody figured they would when they took five out of seven from Hollywood last week, open a seven-game series with the Seals this afternoon at Wrigley Field.

To date the Seals have taken twelve out of fourteen games from the Angels and figure to gauge off with this week's series.

They have too much power playing for the Krugmen, but a great gate attraction and are bringing out some good stuff if the Angels can't give much of an argument.

HOPE FOR BEST

Since the Angels players have hope because of their success, the Stars and believe they'll be able to end the first series they have had on them, remains to be seen.

Ed Barfoot will be on the mound for the Angels in the first game of the series. He has lost his last two starts, but he is a good pitcher and is expected to be a good one.

The last time they faced the Seals, they won 11 to 4, and batted 14 to 10 in the bottom of the ninth.

BUSHY GRAHAM

for Fast Battle

BY KAY OWE

Bushy Graham—bantam champion—opens his Coast campaign tonight at the Olympic.

But the chief interest in the fight is the fact he twice whipped Bud Taylor, rather champion in New York and twenty-six other States.

Adding sauce to the matter, Graham boasts of having had Taylor down on the floor in both battles—one a no-decision contest in Chicago and the other in Madison Square Garden to a referee's decision.

On can put all the times Taylor has been on the floor in over twenty Coast fights in the corner of the eye. In truth, Taylor has never been backed up by anybody out this way.

Graham's opponent is Charley Pinto, anyone who doesn't know Mr. Pinto, may by chance know that Johnny Vacca is a fair extender of any top-notch fighter. He didn't finish back of Fidel La Barba, Newbury Brown and Bud Taylor more than a couple of wild swings.

VACCA SET BACK

Vacca was all outed up to box Graham. Becoming restless without his hand organ which he left in Boston, he asked for a "breather," as they say. The "breather" was Pinto, in a semi-wind-up.

Much to the embarrassment of both Vacca and his manager Wad Wadhams, Pinto just outclassed Vacca to a clear-cut decision.

Under such conditions there was no other course to follow for Wadhams but to notify Graham he was boxing the boy who trimmed Vacca instead of Vacca.

Graham has great confidence in himself. He is a sort of bounding sort in the ring. Some say he

INDIAN HILL CLUB, CHICAGO, Aug. 13. (AP)—If the Indians who used to swing their tomahawks and war clubs over Indian Hill in years gone by could have returned to their former haunts today they would have seen 160 modern "squaws" laboring over their hunting grounds with mashes and nibbles with a vigor that would have shamed their primitive efforts with archaic implements of war.

It was the qualifying round of the women's western golf championship and at the end of the day calculations found that Dorothy Page of Madison, Wis., champion two years ago, had used her war clubs most effectively, swinging them only seventy-seven times to lay low 18 holes posing as her foe.

On the Indian Hill course of 6420 yards they allow eighty-one strokes in such a conquest to be perfect work, so that Miss Page was four blows better than par golf.

SOUTHERN STAR IN

Right behind the medalist was Mrs. Dalton Raymond of Baton Rouge, La., former southern champion, for 78, while the only other player to score under 80 was Virginia Wilson of Chicago, semifinalist last year in the British tourney.

Another player broke par, Mrs. Harry Pressler of Los Angeles, defending champion who made 80. Her fellow Californian, Mrs. Gregg Lihur, who was State champion at home, shot par 81 as did Bernice Wall, runner-up to Mrs. Pressler last year, who hails from the Indian village of Oshkosh, Wis.

It took 90 to tie for the last places among the thirty-two who qualified for match play. About the only star who failed

ROSS SHATTERS SWIM RECORDS

CHICAGO, Aug. 13. (P)—Norman Ross, a former world's swimming champion, today broke two professional swimming records in a one-mile swim against time at the Lake Shore Athletic Club pool while training for the Wrigley marathon swim at Toronto, Can., September 5. Ross's time for the mile was 23m. 32s., breaking by nearly a minute the old mark of 24m. 11 s.-8a. set by Dave Billington in England in 1913. On the way to the mile Ross smashed the three-quarter-mile record which Billington established in Sydney, Australia, in 1907. His time at the three-quarter mark was 17m. 34 s.-4a., as compared to Billington's record of 17m. 38 s.-2a.

BUSSY GRAHAM MAKES COAST DEBUT TONIGHT

(Continued from First Page)
The antics of Pat Moore. But Moore was just a tapper compared to Graham. In most of Bushy's fights he has his opponents on the floor. He not only strikes often, but hard. He shows them. He would just as soon jump up in the air and bring a man down from a blow on the top of the hat supporter, as to come up from down under to the spots that makes razors a necessity. The tougher the going, the better Graham fights. So say his handlers. Irish Johnny Curtin had Graham on the floor ten times the first four rounds. In the fifth round Graham dumped Curtin all over the canvas. Graham is cited in articles to box La Barba on September 11, next. But if Finto can win himself up to the best pitch he maintained to beat Vasca then Finto might have to accept a switch in opponents. Jimmy Murray is Pinto's "Columbus" here on the Coast. It seems that Murray likes bananas. He went into a store in Pasadena and found young Charley taking fight with his rich uncle. Instead of buying bananas he came out with a main-event fighter. One hardly ever finds fiction reading any better than that.

This New PIERCE-ARROW Sedan

now sells for \$2750

Pierce-Arrow, for twenty-seven years, has supplied a single market. A market where fineness is prerequisite—where price is not of first importance. Pierce-Arrow will continue to supply this same market—regardless of price reductions. There has been no lessening of Pierce-Arrow quality. There will be none. Perhaps that is why the new Pierce-Arrow five-passenger Sedan pictured above—America's most admired family car—carries so irresistible an appeal at today's price. It represents a saving of \$600—without the sacrifice of an atom of its original quality. It is endowed with all possible Pierce-Arrow fineness—in finish, in upholstery, in fittings, in equipment. The trade-in value of your present car may more than cover the initial payment required on this special Pierce-Arrow offering. The terms are exceedingly attractive.

Here are the New Low Prices

Note that today's prices are lower than ever before known to cars of Pierce-Arrow manufacture:			
Models:	Former Price	Today's Price	Amount of Reduction
7-Passenger Enclosed Drive Limousine	\$3550	\$2950	\$600
7-Passenger Sedan	3450	2850	600
Convertible Coupe	3450	2950	500
4-Passenger Coupe	3450	2950	500
4-Passenger Sedan	3350	2750	600
2-Passenger Coupe	3350	2750	600
Runabout	3100	2600	500
5-Passenger Club Brougham	2750	2475	275

(Prices quoted are f. o. b. Buffalo)

Your present car will be accepted at fairly appraised value. This will apply against down and monthly payments which make Pierce-Arrow ownership surprisingly easy

GORCHAKOFF IS NET WINNER

OCEAN CITY, NEW JERSEY, Aug. 13.—Ben Gorchakoff, Southern California tennis champion and twice national intercollegiate runner-up, has been seeded No. 1 in the Atlantic coast net championships which opened here this afternoon at the City Tennis Club. The flashy coast collegian easily gained the second round bracket by trimming F. Ferris of the Navy, 6-1, 6-2. Joe Llano, Mexican Davis Cup star, seeded second, triumphed over Ed Hogan, Ocean City, 6-1, 6-2.

HONESTY may be the best policy, but I defy anybody to ever make it popular among professional politicians.

It's getting so many a political contest is more a lying contest than anything else.

Of course, the public wants only the truth. But it often requires more intelligence than the intelligent public is willing to give to such a small matter as the welfare of the country or the city or the State to tell what is truth.

Too many good citizens just apply themselves strictly to their own business, and say: "May the best liar win."

I don't see what right any man like that has to protest against immigration from the south of Europe. The immigrants probably would make better citizens than he is.

So many lies are told in a hot campaign that the man who doesn't keep in close touch with the most reliable sources of information, both personal and printed, is sure to get fooled.

For you can't believe any man who tries to throw blame on others in order to cover up his own weakness, even if he's a Senator.

The mistake most of us make is in being as prejudiced as we can, and then cheering everything which appeals to our prejudices, instead of trying to get unprejudiced and submit everything to reason.

Yes, Palomine, the voting public really is intelligent. But so often it forgets to use its intelligence.

MEXICAN POLICY OF KELLOGG HIT

Sinclair and Doheny Rapped at Politics Institute

Southern Republic Held to Have Been Justified

Defense of Action Voiced by Texas Professor

WILLIAMSTOWN (Mass.) Aug. 13. (P)—Secretary Kellogg and the State Department were criticized sharply for the policies of the United States in Mexico in an address today before the general conference of the Institute of Politics by Prof. David Y. Thomas of the University of Arkansas.

"Why should any nation be denied the right to pass laws requiring sale of lands under eminent domain," the speaker asked, "when these laws operate on citizens and aliens alike? For whose benefit has our State Department been laboring so assiduously?"

"People with agricultural holdings in Mexico do not seem to have raised any great furor, but the oil people have been constantly in the limelight, among the rebel companies being the Doheny and Sinclair interests."

Recalling the criminal actions instituted against Albert B. Fall, Harry F. Sinclair and Edward L. Doheny by the government at the time the controversy with Mexico was at its height, Prof. Thomas said:

"The gods of Olympus must laugh every time they think about how our State Department is defending these men whom the Department of Justice moved heaven and earth to put behind prison bars."

The conference was presided over by Prof. Charles W. Hackett, University of Texas, who expressed approval of some aspects of the department's course in Mexico.

"Happily," he said, "the United States government has never misunderstood nor questioned the motive behind Mexico's agrarian program. Secretary of State Hughes expressed full sympathy with the efforts, but objected to the method of expropriation."

CONTENTION CITED

"Mexico, in justifying her agrarian legislation on the grounds of expediency and humanitarianism, did not contest the contention of the United States that international law did not permit Mexico to expropriate lands of American citizens without payment of their just value in cash at the time of taking. To the great credit of the United States government, it endorsed the action of Commissioners Warren and Payne in 1923 in admitting, in part, the Mexican contention, and Mexico was not denied the right to pay Americans in depreciated bonds. The Mexican government, in an equally generous mood, agreed to the adjudication by a mixed claims commission of all claims arising

PIONEER PRICES RESURRECTED AS FLOOD MAROONS TOURISTS

PHOENIX (Ariz.) Aug. 13. (P)—A desert cloudburst that swept out all roads between here and Prescott and marooned approximately 500 automobile parties today figuratively had washed into existence again the "dollar coffee" and "dollar bread" reminiscent of this State's old-time mining camp days.

Trapped just north of Wickenburg when flood waters destroyed the roads in the vicinity last night, many hundreds of excursionists were held up for the better part of the night. Flood benders from near-towns soon became aware of a potential gold mine and waded and waded through the flood waters with supplies for the hungry travelers.

A small cup of coffee netted those who had it to sell \$1, as did a loaf of bread. A 5-cent box of crackers brought 50 cents.

The torrents started their money-making deluge at 6 o'clock last night and the first of the motorists to get through arrived here at 2:30 o'clock this morning.

LEON TROTZKY SEEN IN BERLIN

Cofounder of Russian Soviet Hides Near City

Told Embassy in Siberia He Will Write

But Creator of Red Army Won't Harm State

(Copyright, 1928, by Chicago Tribune.) BERLIN, Aug. 13. (Exclusive)—Leon Trotsky, Nicola Lenin's comrade in founding the soviet state, and the creator of the Red army, whom present-day Russia deported to Siberia, is living in the most strict seclusion, near Berlin. He was seen on Berlin's main thoroughfare and was recognized, but he jumped into a closed car, which whisked him off into the darkness.

HUMBLE PIE SPURNED

A close investigation proved that two months ago the Moscow rulers determined to liquidate the opposition by a dramatic coup. G. S. Zinoviev, one-time president of the Third International; L. B. Kamenev, former Commissioner of Foreign and Home Trade, and M. Trotsky, were to eat humble pie and be produced before the sixth World Communist Congress as Repentant Sinners. Mr. Kamenev and Zinoviev fell for it, but Trotsky, who is a man of principle, did not agree with him. He told an emissary of Moscow, visiting him in his far-eastern retreat, "I will not submit to a line of a policy which I believe to be wrong. But I am a staunch and loyal Communist. I want to do nothing that could hurt the only Communist state in the world. I cannot agree with its momentary policy, but I do not want to disagree publicly. I therefore will wait to retire, for the time, at least, from every kind of public life. I want to write. I will write nothing harmful to the Soviet Union. But I will write what I believe to be true and what I believe to be just. I will disappear for a time, preferably abroad."

WHEREABOUTS KEPT SECRET

Moscow agreed to this proposal. He is staying in a quiet house in a country house near Berlin, but the most rigorous precautions are being taken to keep his exact whereabouts secret.

Twice he has been in Berlin itself, to attend to bank business in which he is interested. These trips took place after dark.

EUROPE PLAYING ANTIQUE TRICKS

Guile Employed, Not Brand New But "New Brand"

Sheraton Furniture Passed Off for Duncan Phyfe

Study of Imports Tells of Sums Spent Abroad

BY FREDERIC J. HASKIN WASHINGTON (D. C.) Aug. 13. When the American tourists who bring home souvenirs of their trips abroad discovered that there was one class of commodity on which there was no duty, there was a rush of customers. However, there were others who were ahead of them, perhaps not in greater numbers, but with greater purchasing powers, and there also was another reason that this class of goods was in demand.

Antiques are the imports to this country that can come in duty free, if they are 100 or more years of age. Since buying antiques was already a craze this added only more verve to the craze and verve to steam-heated, tiled-bathed, electric-refrigerator apartments.

DEALERS FLOCK ABROAD

The others who are outbidding the tourists are the antique dealers and decorators who have flocked to England and even Holland and Germany. The reason of the exodus is based upon an even more sound if not a more straightforward system of finance. The fact is that Americans are demanding Americana, and more particularly they are demanding Duncan Phyfe. Naturally prices after his designs are limited and are commanding fabulous prices.

Consequently, when it was found that in England there was a quantity of furniture which looked similar to, and was more valuable under the name of Duncan Phyfe, the dealers who are so close to the general architecture of the Scotchman, who became the American master, followed Sheraton so closely that it is possible to put over the work inspired by the Englishman as Duncan Phyfe. Although he originated certain details which identify the things distinctly, there is sufficient similarity for the confusion.

MASTERS SET STYLES

When a piece of furniture is called Duncan Phyfe or Sheraton it must be understood that it was not necessarily made in their factories, or that either of these artists superintended the making of the products which are classed as theirs. These craftsmen published books of design and other cabinet makers created much of the fine furniture called by their names.

What is happening is this: American dealers, some in ignorance and some in sincerity, buy old pieces that have the halo of the sacred, to antique fans, name of Duncan Phyfe. Made in England by English artisans, they most certainly are not, but they display many of the characteristics. It is economical to create the stuff, ship it to the United States, pay duty, as it so often does not pretend or cannot be proved to be 100 years old, repair it, and sell.

LARGE DUTIES PAID

The customs figures for last year show that more than \$1,000,000 was collected in duty on furniture which was not sufficiently old to escape. Nearly \$800,000 worth of antiques including objects of artistic and educational value, among which were furniture, were brought in duty free. Much of the antiquity will be sold for what it is, but some of it will find a new name.

Although the English price Sheraton furniture more highly than that made by Duncan Phyfe they are willing to market it to carry Yankee dealers or wide-eyed tourists as American, because it cannot command correspondingly high prices in that country.

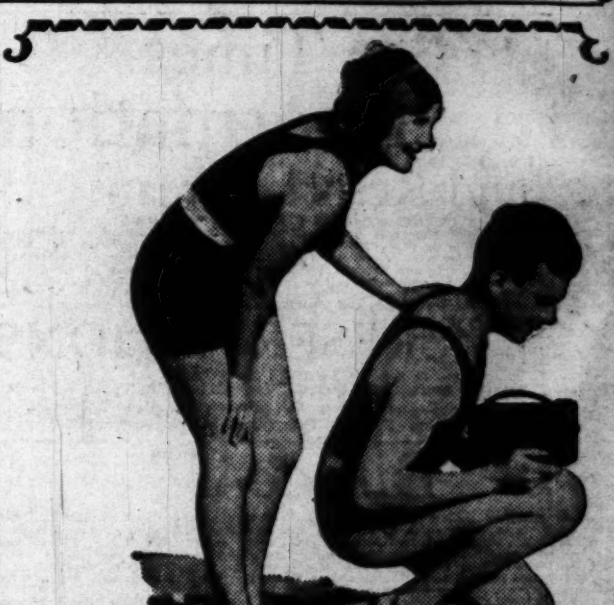

DIFFICULT TO DETECT

Although most dealers can distinguish Duncan Phyfe from Sheraton, Empire, and furniture of the transition they are at a disadvantage buying abroad. It is admitted by a well-known dealer in antiques that it is difficult to detect the flagrant imitations that are on the market. In England there are vast quantities of old wood, and there is sufficient to make it worth while to employ mechanics to do the imitation work that requires a high-grade of skill. Here it is not profitable to employ a cabinet maker to make over old panels into tables and chairs and chests.

GOOD PRICES PAID

A table of the Duncan Phyfe period, which is loyal to the finest in this man's designs, may command as high as \$800. Chairs have sold in New York for \$500 apiece. They are proportionately more valuable in sets. Another phase of the collecting mania is that for gilded old glass. Experts admit that it is almost impossible to detect reproductions.

Collecting is not a hobby that belongs to any one class of persons or is applied to any one class of things. Henry Ford preserves an old inn and a little red schoolhouse. Some one else specializes in cream pitchers and gong tongs. Others roam the world for fine porcelain or pewter. The small boy, even the grown-up, has his postage stamps or his pocket full of odds and ends. Those who relate to those with illusions, there are the fakes, Sheratons are called Duncan Phyfes. Cunningly created pieces were once fine old oak or pine panels.

ESTATE OF MRS. BUSCH \$10,000,000

Amount Left by Widow of St. Louis Brewer Larger Than Had Been Thought

ST. LOUIS, Aug. 13. (P)—As an inventory of the estate of Mrs. Lily Busch, widow of Adolphus Busch, St. Louis brewer, near completion, the Post-Dispatch learned today the estate will exceed \$10,000,000 instead of \$5,000,000 as supposed at the time of her death at her winter home in Pasadena February 25, last.

A large item in the inventory is Mrs. Busch's Pasadena home, which cost about \$2,500,000.

SEA COMBED IN QUEST OF COLLEGIANS

Four Students Missing from Boat Capsized Off Rhode Island Coast

WATCH HILL (R. I.) Aug. 13. (P)—An airplane, coast-guard vessels and a fleet of yachts from the local yacht club were searching Fisher's Island Sound today for four young college students believed to have been drowned last night when the sail boat in which they were returning here from Fisher's Island capsized in the rough sea.

A fifth member of the party was brought into the coast-guard station here this morning by a fisherman who had found the young man clinging to the keel of the overturned boat.

The missing are: Trovbridge Cottrill, 30 years of age, of Westerly, Joseph H. Soles, 22, a Princeton student of Louisville; John McIlvain of Ardmore; and Lloyd Bankson, a Yale student of Philadelphia.

The student rescued is John M. Colohan of Chestnut Hill, Pa. He is at the Westerly Hospital suffering from exposure and shock.

Third of Poison Victims Expires

CHICAGO, Aug. 13. (P)—A third death attributed to poison among residents of a North Side apartment-house is under investigation today while a fourth victim is in a critical condition.

The third to die was Mrs. Catherine Magliano, 25 years of age. Her husband Joseph died Thursday and Miss Alma Lee, nurse, Saturday. Another nurse is in a serious condition.

All four were stricken Wednesday. Mr. and Mrs. Magliano were not acquainted with the nurses and had not eaten of the same food.

Shops in the neighborhood were investigated but no trace of poisoned food was found.

Poison Plot Case Delayed

CHARLOTTE (N. C.) Aug. 13. (P)—Principals in an alleged poison plot uncovered here last week were granted a continuance until Wednesday when their case was called today for preliminary hearing in City Recorder's court.

S. W. Daniels, fortune teller, who is charged with selling poison to "clients" who wished to be rid of their spouses, pleaded that he had been unable to procure counsel and that the State should appoint a preliminary defense. He is formally charged with murder in connection with the death of L. M. Lockamy, nurse, who the State claims, was poisoned last June.

Fighter Answers Police Summons

OAKLAND, Aug. 13. (P)—Eddie White, a widely-known prize fighter, surrendered to Oakland police today after learning that authorities were looking for him on a warrant charging felony and embezzlement. The charges were filed by Betty Cornell of Eureka, who charges White has failed to return her diamond ring.

White was taken into the District Attorney's office six weeks ago on the same complaint and at that time asked to be allowed to get the ring from a man in Fresno.

Bay City Bridge Leader Ousted

SAN FRANCISCO, Aug. 13. (Exclusive)—James B. McSheehy, who advocated a combined tube and bridge for San Francisco Bay against the wishes of his colleagues on a special committee which impounded Congress for action, was ousted from his position as chairman of the bridge committee by the dismissal of the entire committee. It will be re-formed, but action was deferred because of differences over the personnel of the new committee.

In any event, it is certain that McSheehy will not be reappointed. McSheehy precipitated the action of the committee by seizing the opportunity to read a lengthy document in defense of his plan.

English Novelist, Louis Tracy, Dies

LONDON, Aug. 13. (P)—Louis Tracy, author of many novels and detective stories, died today at his home near Ashford, Kent. He was born in 1863 and educated privately in Yorkshire and France. In early life he varied his journalistic career with travels in India and the United States.

He was attached to the headquarters staff of the British War Mission in the United States in 1917 and in 1921 collected in America a large sum for the restoration of Westminster Abbey. He was a member of the Lotus Club, New York.

Woman's Death Laid to Beating

SAN FRANCISCO, Aug. 13. (P)—Mrs. Elizabeth Hudakoff, 35 years of age, died at a hospital here last night of injuries which physicians believe were caused by a beating.

Mrs. Hudakoff, 3234 16th St., her common-law husband, is held for questioning by the homicide squad. Police fixed his bail at \$1000 on a variance charge. The woman was taken to the hospital, Friday night.

NEW YORK-BUCHAREST FLIGHT PROJECTED

PHILADELPHIA, Aug. 13. (P)—Lieut. George Pernic, Rumanian army officer and son of a wealthy shipbuilder, will shortly attempt an airplane flight from New York to Bucharest, he announced today during a visit here with Michael Marian, Rumanian consul.

Bisbee Streets Become Torrent

BISBEE (Ariz.) Aug. 13. (P)—Bisbee was shaken by its second severe electrical storm in three days shortly after 11 o'clock today. A heavy downpour of rain filled storm sewers and swept large boulders down city streets.

A five-foot wall of water rushed down Ore avenue, a one-way thoroughfare specially constructed to carry away flood waters. Several automobiles were washed down the street for a distance of several hundred yards.

Five Robbers Hold Up Bank

CHICAGO, Aug. 13. (P)—Five men today held up the West McHenry State Bank northwest of here and escaped with \$21,000 in currency.

The town marshal emptied his pistol at them as they fled in an automobile.

COUNTY FAIRS GIVEN AID OF STATE FUNDS

SACRAMENTO, Aug. 13. (Exclusive)—State Director of Finance Heron today announced the appropriation of \$37,500 in State funds to the county fairs, the allotment being based on the premiums paid by the expositions in 1927. The premiums of twenty-four fairs totaled \$143,500.

The following are the fairs to be aided for the southern counties follows: Fresno District Fair, \$3147.56; Imperial Valley Midwinter Fair, \$1500.25; Kern County District Agricultural Association, \$1498.84; Los Angeles County Fair, \$10,915.88; Orange County Community Fair Association, \$8819.19; San Bernardino National Orange Show, \$2341.16; San Diego County Fair Bureau Fair, \$1324.66, and Ventura County Fair, \$4673.48.

EARTHQUAKE DAMAGE TO EMBASSY COSTLY

MEXICO CITY, Aug. 13. (Exclusive)—Damage caused to the United States Embassy buildings here by the recent earthquake amounts to \$5000, which is the cost of repairs made necessary by the tremors.

Morrow's bed room and that section of the residential building of the Embassy compound generally used by the Ambassador suffered the greatest damage.

Timepiece Clew Leads to Arrest and Confession by
Negro Who Murdered Teacher

CHICAGO, Aug. 13. (Exclusive)—Jennie Meta Constance's murderer
was trapped tonight through the watch he had torn from her wrist after
he had beaten her to death last Tuesday night and dragged her behind
a hedge at the home of Attorney George H. Peaks, in Evanston. When
captured he immediately confessed.

He is a negro and gave the name
of Dave Shanks. He has worked
around Evanston as a shoe shiner
and at various other occupations.

He sold the watch to a boy, the son
of the owner of the shoe-shining
stand, for \$1, and it was the boy
who led the police to Shanks.

The confession cleared up a crime
that had been hanging in a state of
alarm for nearly a week. Im-
mediately after the finding of the
body of Miss Constance, who was 42
years of age, and a summer student
at Northwestern University, Presi-
dent Walter Dill Scott of the uni-
versity offered a reward of \$1000 for
the capture of the murderer, who
was adjudged to be either a maniac
or a moron.

NOTED STUDENT
Miss Constance was the head of
the English department of the Brad-
ley Polytechnic Institute at Peoria,
Ill., and had degrees of A.B. and M.A.
from Northwestern University. She
was noted as a student of doctor
of philosophy. She was noted as a
lecturer and had done considerable
traveling.

The watch had been the only
clue, and Chief of Police William O.
Freeman had pinned his final hopes
to the turning up of the watch. He
was at the end of his resources to-
day when John Mertz, a whole-
sale jeweler in Chicago, called on
him.

"Is this the watch that was taken
from Miss Constance?" Mertz asked.
"It is."

"It has been taken to the jewelry
store of Earl H. Koch to be re-
mended," Mertz stated.

The watch bore the initials J. M.
C., representing the name, Jennie
Meta Constance, and it was to have
the initials L. T. B. in their stead.

Detectives were sent immediately
to the Koch jewelry store and they
waited all afternoon for the watch
to be called for. Their patience was
rewarded shortly after 6 o'clock.

BOY LEAVES WATCH
A boy, who had left it had said
he would call for the watch at 6
o'clock.

"I bought it from one of our ne-
gro shoe shiners in our shop," the
boy said, giving his name as Lebert
Bastian, when police accosted him.

The detectives went to the shop
and found Shanks at work.

"You got the right man," he said.
"But I didn't do anything to her
but kill her."

He said that he had wandered
about on the night of the murder
seeking someone whom he might
rob. When he reached the darkened
street on which Miss Constance
lived, he saw a woman coming.

"I got behind the hedge and I hit
her," he said. "Then I dragged her
into the yard and took her purse
and watch and then I ran to the
shoe shining parlor."

"Wednesday night I showed the
watch to Lebert and told him I
found it. I asked him how much
he'd give me for it and he gave
me \$1.17."

NEGRO CONFESSES
He was immediately whisked away
and held in hiding to prevent any
attempt to take him from the au-
thorities.

Chief Freeman was away on va-
cation when the body was found last
Wednesday morning. A post mortem
showed that Miss Constance had
been attacked, probably after re-
ceiving the blows on the head which
must have killed her instantly.

The body had lain there all night,
while a search was conducted for
Miss Constance, who had left her
home to go to the Orrington-Lunt
library on the Northwestern campus
road. It was not until late
Thursday that it was known she
had been wearing a wrist watch.

FRAGILE CLEW
Chief Freeman, in touring the
vicinity of the crime, chanced to
notice the torn black ribbon that
seemingly had been the wrist band
for a watch. It had two small gold
clasps and Chief Freeman immedi-
ately concluded it had been broken
when the watch was roughly
snatched from the dead woman's
wrist.

The family identified the band as
that of Miss Constance's watch.

"It's our most important clew,"
Chief Freeman said. "That watch
will eventually be taken to some
jewelry store. We must have them
all noticed to be looking for it."

And it was through investigations
centering about this clew that Mertz
noticed the watch that led to the
negro's arrest.

Bremen Plane
Given America

BERLIN, Aug. 13. (P)—The air-
plane Bremen, first to negotiate the
trans-Atlantic passage from Eu-
rope to America, is destined for the
projected municipal museum of the
city of New York. This became
known today when United States
Ambassador Schurman received a
letter from Baron von Huenefeld,
owner of the plane, tendering it as
a permanent gift to the community
which first welcomed him to the
United States.

Baron von Huenefeld's letter
lauded the Ambassador's personal
interest in the achievements of
German aviation, especially the
flight of the Bremen. He praised
Mr. Schurman's efforts to promote
friendly American-German rela-
tions and said that his personal
friendship for the Ambassador
largely had inspired the decision to
make a gift of the Bremen to the
American people.

PROPELLOR OF BOAT
INJURES SWIMMER

LAKEPORT, Aug. 13. (P)—Samuel
H. Beach, Sebastopol High School
teacher, was struck today by the
propeller of an outboard motor boat
propelled by William Newby, the driver,
failed to see him swimming in his
path. Beach dived when he saw
that he would be struck, but suf-
fered a broken and lacerated arm.
He was rescued by a near-by boat-
man.

Committee Called to Act on
Ticket's Withdrawal

NEW YORK, Aug. 13. (P)—Leigh
Colvin, chairman of the Prohibition
party national committee, said to-
day that members of the committee
will be asked to pass on withdrawal
of the party's Presidential ticket in
favor of Herbert Hoover, Republican
nominee.

"Hoover's views as expressed in
his acceptance speech are very sat-
isfactory to me," Colvin said, "and
I believe to a majority of my col-
leagues on the national committee."
In his judgment our national ticket
will be withdrawn before September
1 and Prohibitionists urged to vote
for the Republican Presidential and
Vice-Presidential nominees.

He said he is sending letters to
members of the national committee
asking whether they would rather
have a formal meeting or register
by mail their approval of the pro-
posed withdrawal of the Prohibition
ticket.

"Our convention," he said, "au-
thorized the national committee to
replace its nominees with others in
the meantime it became apparent
that a major party had named can-
didates pledged to rigid enforce-
ment of the prohibition law and
against its repeal or modification."
"We are convinced that if Hoover

is elected, so long as he is Presi-
dent the prohibition law will be
sealously enforced. The issue is
clear. Hoover is dry. Smith is an
avowed wet. Prohibitionists can
best achieve their purpose by vot-

ing straight for Hoover against
Smith."

The Prohibition Presidential nom-
inee is William F. Varney of Rock-
ville Center, N. Y. James A. Edgerton
of Virginia is the Vice-Presiden-
tial candidate.

METHUSELAH SAID IT FIRST

"Days Are Getting Longer," He Might Have Noticed,
One Second for Every 100,000 Years

WASHINGTON, Aug. 13. (P)—The days are growing longer—at a rate
of about one second every 100,000 years. That much has been established
through study of astronomical records covering long periods of observation
which show that the earth gradually is slowing down as it revolves on its
axis.

Going further, Prof. Benjamin
Boss, director of the department of
meridian astronomy of the Carne-
gie Institution of Washington and
of the Dudley Observatory at Al-
bany, N. Y., recently has been led
to the conclusion that the rotation
rate undergoes yearly and perhaps
even daily changes with alternate
periods of slowing and speeding.

He also has observed an appar-
ent relationship between these fluc-
tuations in the rotation rate and
the variable frequency in the occur-
rence of earthquakes. Thus far it
has not been possible to foretell
the amount of change to be expect-
ed in the earth's rotation, but if
this can be done and the indicated
relationship can be established, he
suggests, it may become feasible for
scientists to predict periods of great
earthquake activity.

Edmund Halley was the first to
note the decrease in the spinning
rate of the earth and Sir George
Darwin, second son of Charles Dar-
win, ascribed this phenomenon to the
friction produced by the tides
piling up on shores and dragging
across the bottom of shallow seas.

That, however, would account for
only two-thirds of the aggregate
loss of speed, and Prof. Boss be-
lieves the difference can be ascribed
to the existence of similar tides
within the earth as well as in the
oceans.

The discovery of the alternate
speeding and slowing of the earth's
rotation is credited principally to
Prof. E. W. Brown of Yale. By
comparing the observed positions of
the sun, moon and planets, as re-
corded during a century of obser-
vation, with their calculated posi-
tions, he found that in some years
they were ahead and in others be-
hind the position they should have
occupied. The fact that the
changes were simultaneous dis-
closed that the earth, not the sun,
moon and planets, was out of step.

When the earth was young, it is
calculated, it must have spun very
much faster than it does now, prob-
ably making a complete rotation in
about five hours. Now, much older,
it rotates once in twenty-four hours,
but despite this relatively great loss
of speed a point at the equator
travels at a rate of more than 1000
miles an hour.

Strongly Approves Proposed
Agricultural Aid

CHICAGO, Aug. 13. (Exclusive)
"I am much impressed by Mr.
Hoover's acceptance speech as a
whole," ex-Gov. Lowden announced
today, thereby breaking a silence
pertaining to his position since the
nomination of Hoover.

The Lowden announcement was
made through John G. Oglesby, for-
mer Lieutenant-Governor and now
head of the farm-bureau commit-
tee of the Republican National
Committee, and Clarence N. Buck,
ex-State Senator. It put Lowden,
who was considered the champion
of the agricultural cause, on record.

Lowden's statement continued:
"With reference to agriculture his
frank recognition of the agricul-
tural problem as the most urgent eco-
nomic problem in our nation today
is very heartening."

"Mr. Hoover's aspirations to bring
the farm population up to economic
equality with other groups, has my
heartiest approval."

HESITANT TON ON STOCK MARKET

Money Situation Continues Dominant Factor
General Price Drift Lower and Trading Light
Low Issues Forced Higher
Bullish Interests

NEW YORK, Aug. 13. (AP)—The stock market was irregular today, as credit tension caused considerable hesitancy, although speculators for the advance moved in pushing a number of issues forward.

Automotive shares were a strong feature of the industrial group, Auburn auto rallying more than 7 points in active trading, and Buick pushing up more than 6 points to a new high record. Ford, which had been in a small gain, and Checker, which had been in a small loss, both developed 3 points in heavy trading, but developed weakness in the afternoon and closed near 1/2 point up. Fox Theatre "A" also overcame early heaviness and closed fractionally higher. Columbia Graphophone, however, lost an early gain and closed a fraction down.

A. O. Smith and A. O. Spaulding shot up about 20 points each in scattered trading, the former touching a new high at 175. International Safety Razor "B" and U. S. Asbestos also touched new peaks in small gains. American Fur Products gained on rumors of a merger with a Canadian company, and Van Camp preferred was stronger on announcement of recapitalization. Adams Mills gained about 3 points. West spots were heavy in small gains. American Rubber and National Rubber Machine were in a fraction down.

Miners were irregular, Noranda gaining 1/2 point, but a heavy loss in the afternoon, with a gain of 2 points. Vacuum was a feature of the irregular oil group, with a gain of 2 points. Better, after a rally, fell in the afternoon, but finished with a gain of 1/2 point. United States Power "A" rallied from an early loss, price is limited when same as the low, and both low and close same as the high.

8% Cumulative Preferred Participating Stock
This stock carries a fixed, cumulative preferential dividend at the rate of 8% per annum, payable January 1st and July 1st, and when an additional 8% has been paid thereafter on common stock, this preferred stock will share equally with common stock in any remaining surplus or net profit dividend. This preferred stock has equal voting power with the common and shares equally in the profits, with considerably stronger protection.

The Officers and Directors
are successful business men, whose dealings in the past have earned them an enviable reputation for ability and integrity. The department managers have been thoroughly trained to get the best results, and the organization comprises a complete co-operative unit in every detail.

Invest Where Your Money Is Protected
by all the assets of a prosperous and growing organization, engaged in one of the soundest and most profitable forms of business, i. e., manufacturing and distributing substantial building material products.

Every investor in this issue participates in all the profits of the entire business on three established, going factories, besides the greater profits in prospect from the ready-cut fire-proof home enterprise.

The stock issue is small—the opportunity great—the protection ample. To those who seek security with possibilities of return greater than the average, this investment will appeal. The issue, we believe, will be quickly subscribed.

The best money makers in Southern California are Real Estate and Building. The best money makers in Building are the Material dealers. We have 3 factories supplying this district, doing business for the past 5 years. Our past record indicates that we can pay 8% and we expect to pay 25% or better. One of our factories has for 3 years shown a yearly average profit of over 25%.

FINAL RULE FOR DIVORCE
To Anna Augustin, late of St. Louis, Missouri, and now residing at 1010 North Main Street, Los Angeles, California: You are hereby notified that a final decree of divorce from the bonds of matrimony has been granted against you at the suit of Morris Augustin, your husband, which will be heard in the Court of Common Pleas, County of Los Angeles, State of California, on the 17th day of September, A.D. 1928, at 10 o'clock A.M. (or earlier, if convenient), on which day you may appear and show cause, if any you have, why such divorce should not be granted against you. In Court of Common Pleas No. 1, Room 707, No. 141, City Hall, corner Broadway and Market Streets, Philadelphia, Pa.
MATTHEW R. COHEN, Attorney for Plaintiff.

BOLSA CHICA OIL CORPORATION
Dividend Notice
Common "A" Stock Dividend No. 1
A regular quarterly cash dividend for the three months period ending Sept. 30, 1928, equal to 5% of its par value (being at the rate of 8% per annum), will be paid upon the Common "A" Capital Stock of this Corporation by check on September 15, 1928, to shareholders of record at the close of business on August 31, 1928, when the transfer books will be closed for a period of ten days. Checks will be mailed.
FRANCIS R. GOEMLEY, Secretary.

A "Going" Business—Not Just a Prospective One
The Klinch-Lock Lath and Steel Studding Corporation is not merely an "inventor's dream." It is a going business concern. Approximately 10,000,000 yards of Klinch and Lock Lath has been used in practically every type of building. The capacity of the two plants totals about 10,000 yards per day, which will be substantially increased from time to time as needed.

Building material products go hand-in-hand with the prosperity of any community. The stabilized local conditions have brought into prominence a type of building material that is substantial and lasting. Reduction in insurance rates because of its tremendous fire-and-earthquake-resisting qualities and resistance to wear and tear and other forms of depreciation gives it a dominant advantage in competition with other kinds of competitive materials.

Mellus Murder Case Hoax of Woman and \$5000 Bribe Exposed

MYSTERY GIRL PROVES "JOKER"

Kelley Enters Not Guilty Plea to Charge

Judge Assigns Trial Date for 27th Inst.

Hearing on Bail Allowance Set Tomorrow

A young society girl with \$5000 cash in her pocketbook, on her way to Paris to buy wedding gowns, for a time yesterday threw quite a thrill into the Mellus murder mystery, but her value as an informant or witness faded to zero after all the facts were known.

The young woman is Miss Virginia Grove, whose parents are wealthy residents of Tacoma, Wash., and who, incidentally, is engaged to marry a prominent physician now in the county service.

The young lady was sprung on the authorities without warning yesterday by the receipt of the following telegram from Chicago:

MYSTERY TELEGRAM
"Kelley guilty. Influenced by one Miss Virginia Grove. Left Saturday on Golden State. Leaves today on Twentieth Century Limited for New York. Bails to France Friday. Party intoxicated on train. Boasted receiving \$5000 bills to leave city. Displayed same. Use your own judgment."

SERGEANT SULLIVAN.
Chief of Detectives Cline immediately wired the Chicago police to have the woman apprehended and questioned, but in the meantime Miss Grove's fiancé hurried to Dep. Dist. Atty. Thomas's office and plunged into explanation.

Thomas was assured by competent evidence that the young woman was out of the city at the time of the murder and that in reality she was on her way to Paris to buy a wedding trousseau with \$5000, a gift from her mother. She never had known any member of the Mellus family or Leo F. Kelley, charged with the slaying, and her knowledge of the case was gained from discussing it with her doctor sweetheart.

PRACTICAL JOKE
The physician was unable to explain the source of the Chicago telegram, but ventured the opinion that the girl, who has a vivid imagination and likes a practical joke, was "kidding" some of her fellow passengers on the train.

With these facts in their possession, the local police wired Chicago authorities not to stop Miss Grove. Kelley will go to trial on the 27th inst. at 9:30 a.m. in Department Twenty-seven, Superior Court. Superior Judge Edmonds fixed the date after Defense Attorney Hahn asked for trial "as soon as possible, in ten days or two weeks." The 27th inst. was the first date agreeable to the District Attorney's office.

RAIL HEARING SET
Hahn moved that Kelley be released on bond, but the judge said he had not read the transcript of the grand jury's investigation and set tomorrow at 10 a.m. as the time when he will hear arguments on the motion. The District Attorney's office will oppose the motion, it was announced by Dep. Dist. Atty. Thomas.

Fixing of dates for further court procedure came yesterday when at

Leo Kelley Enters Not Guilty Plea

Scene in Court
Left to right, Judge Edmonds, Leo F. Kelley, Dan J. Heyfron, S. P. Hahn, Court Reporter Smith.

10:15 a.m. Kelley was before Judge Edmonds to plead. Dep. Dist. Atty. Jordan went through the formalities of making the charge and "how do you plead?" Kelley or not guilty?" came from the judge to which Kelley replied, "Not guilty."

Hahn introduced Dan J. Heyfron as associate counsel for the defense. Heyfron, Hahn said, has just come from Montana, where he practiced law for twenty years, specializing in criminal cases. Heyfron now is a partner in the Hollywood firm of Heyfron, Davis & Heyfron, which includes his brother, Gilbert J. Heyfron, third member of the firm, who formerly was manager for the motion-picture actor, the late Wallace Reid.

The small courtroom was crowded when the prisoner appeared, mainly women in bright-colored clothing. Kelley was calm, made his plea nonchalantly, he coughed slightly and assumed a bored attitude while he stood waiting for the fixing of further court cases until he was taken back to his cell.

DEATH-CAR RIDE RELATED BY GIRL

Asserted Gangsters Drove Auto, She States

Men Named in Bootleg War Killings Face Court

Vagrancy Charges Pressed in Police Clean-up

"Taken for a ride" by two men in the armored car which police assert is connected with the recent murders of Augie Palambo and other bootleggers in Los Angeles, Claire Goodrich, Santa Ana girl, yesterday told on the witness stand in Municipal Judge Sheldon's court, where several asserted gangsters are on trial on vagrancy charges, how she was threatened with death if she told the police about the incident and only released after the men believed her sufficiently frightened to keep silent about her experience.

Miss Goodrich declared that she was told "You'll never leave this car alive if you give the police its license number," and that she also was informed that the car was equipped with bullet-proof glass and that "You know what that's for. We're from Chicago."

IDENTITIES DRIVEN
She was called as a witness against Louis Tassell, whom she identified as the driver of the car at the time. She testified that Tassell and his companion, Vito Desecra, offered her a ride to the beach as she was waiting for a street car on Venice Boulevard at 11 a.m. Sunday, May 20, last. Desecra was tempted to make love to her and twisted her arm when she refused his advances, she testified. When she screamed, Tassell stopped the car and let her out, she said, but they returned when the two men noticed that she had taken down the automobile license number.

They then forced her to re-enter the machine and, after threatening her, finally allowed her to go when they reached Venice. She notified the police immediately, she said. Tassell was found guilty by the jury.

PLAYS GANG
The vagrancy charges are an organized effort on the part of the police and City Prosecutor's office to clean up Los Angeles, Deputy City Prosecutor Hornaday told the jury in a brief argument in which he declared that "these gangsters may run Chicago, but they are not going to come out here in their armored cars and run Los Angeles. It took a murder to bring these men into court on charges of vagrancy, and if you let them go you are responsible for the next crime they commit in this city."

Hornaday's remarks were made after an address to the jury by found John Tostini, the first asserted gangster to be tried yesterday, guilty of vagrancy. Evidence was presented by Detective Greenhill and Gibson and Detective Lieutenant James. Following Tostini's conviction, Tony Zamula, arrested with him under similar circumstances, also was convicted of the charge of vagrancy. The jury was out more than three minutes.

HELD IN MURDER
The men tried yesterday and last night were originally arrested on suspicion of murder in connection with the late "red" slaying of Palambo. The murder charges were later dismissed. Those found guilty will be sentenced this afternoon by Judge Sheldon.

RUSSIA ADOPTS PLANS OF EXILE
(Continued from First Page)
which captured Odessa from a force of 10,000 Reds. When the volunteer movement began to fail in Southern Russia he fled from Odessa to Constantinople with his mother and father and other relatives. Three days after reaching Constantinople his family was robbed of its jewels and money and he was forced to work as a day laborer to keep them from starving. He later became an art broker and by chance started a venture on the Turkish Stock Exchange. At the close of eleven months he had amassed a small fortune, which he lost in Vienna.

From Vienna he went to Berlin to try and recover his disastrous venture in the Austrian capital, and there he chanced to collide with a German motion-picture director on a motorboat. The result was that he was finally given a small part in a German picture. He later went to France and while there made five pictures. He came to this country three years ago and for the last two years has been in Hollywood.

Though there have been countless Russian films made on the lots of Hollywood, Lebedev has not played a part in one of these, but has been chosen for leading roles in typical American pictures.

WILL DEVISE BALK FOR HEIR'S CONTEST
The will of Rose D. Ballestro, dispositive of a \$15,000 estate, was admitted to probate yesterday by Judge Becker in Superior Court. The property is devised to Edith O'Parrell, and to a brother and his daughter, with the injunction that if any heir contest the will the legacy of such heir shall be cancelled.

HILL TO ADDRESS CLUB
Earl W. Hill, vice-president of the International Institute of Traffic and a lecturer at the University of Southern California, will address the Women's Traffic Club of Los Angeles tomorrow at the Builders' Exchange Building.

SIGNALS ORDERED
Arthur W. Lynch and other property owners yesterday asked the City Council to order the installation of automatic "tic" signals at the intersection of Glendale Boulevard, Alessandro Boulevard and Fargo street.

SUNSET NAMING UP TO COUNCIL

ceived by the City Council yesterday, endorsed the change of name which has been petitioned for of Sunset Boulevard from the Plaza to Hillhurst avenue.

Under the plan proposed Sunset Boulevard in this section would be renamed Hollywood Boulevard, as Sunset connects at Hillhurst now with Hollywood Boulevard.

County Budget Kicks in Order
Persons dissatisfied with the county's financial program for the coming year will have a chance to express themselves beginning next Monday. The Board of Supervisors yesterday ordered publication of notice of hearing on protests against the tentative budget. They will sit Monday and for ten days thereafter, unless all protests are disposed of earlier.

After these hearings the final budget will be adopted and the tax levy authorized.

TEMPERATURE TO HEAR BAND
The California Junior Club band, directed by Frank Nesbitt, will entertain members of the Missouri Society and their friends next Tuesday night at Moose Hall, 1024 South Grand avenue. On Sunday the Missourians will hold their annual picnic at Sycamore Grove Park.

FEEDING RIVAL GAINS DIVORCE
Walter A. Rankin took another woman along on a trip to the mountains, and Mrs. Clara Rankin did not make a fun over that, she told Judge McComb yesterday. But when he made his wife do the cooking while he was attentive to her rival, it passed the limit of wifely condonation, she submitted. Judge McComb agreed with her, and gave her a divorce.

FINES ALARM LOCATED
The Fire Commission notified the City Council that the board has selected a location at Museum and Wrentham drive where a fire-alarm box will be installed, as requested by the residents of Museum Heights.

TELLS OF RIDE IN GANG'S DEATH CAR

Asserted Film Swindler Held for Grand Jury

Lester Hanger, charged with using the mails to defraud, was ordered held for the grand jury, which will meet September 8, when he appeared yesterday for hearing before United States Commissioner Head at the Federal Building.

Hanger was arrested, for the second time, charged with obtaining funds from amateur scenario writers throughout the country. Hanger's method, government officials say, was to advertise in film magazines, as a "scenario sales" corporation and on receiving manuscripts from authors, report the story sold, and ask funds so that the script could be made into proper form for presentation to film companies.

He was up before Federal Judge James on the same charge last February and released to appear for sentence in September on his promise to "be good" in the future.

Jail Ordered for Tardiness With Alimony
Ray Hunstman was being sought yesterday under a bench warrant issued by Judge Montgomery because of arrears in alimony.

Several days ago Hunstman was ordered to pay Mrs. Elton Hunstman \$300 so that she could pay her attorney, Ben C. Cohen, for handling her divorce suit for her. Hunstman pleaded lack of funds, pointing to his retirement from bootlegging as the reason for his financial straits. Judge Montgomery did not think it a good reason, and told him to pay up or go to jail.

Yesterday Hunstman failed to appear in court and pay, and as his attorney, C. O. Bacon, could not explain his absence, Judge Montgomery ordered Hunstman's detention in jail five days.

Court Decides Boy Can Have His Airplane
By order of the court William Lomax Graves, 17 years of age, will have his airplane.

Young Graves, son of Mrs. Mary Graves of La Cuyana, is the heir of \$500,000 left to him by his grandfather, Judge Stephen C. Hubbell and Dr. William L. Graves. The trustee of the estate reported to Judge Becker, in Superior Court yesterday, that from income of the trust there is a surplus of \$25,000, and that the young man wants an airplane. No one objecting, the order was made that the trustee may expend \$14,000 for the purchase of one. "Hope he turns out to be another Lindbergh," Judge Becker observed.

Pigeons Disrupt Power Service Throughout City
Pigeons disrupted the light-and-power service of downtown Los Angeles and Hollywood yesterday for from six to ten minutes. According to a report from the Bureau of Power and Light a short circuit occurred in a high-tension line, carrying 33,000 volts, at the intersection of San Fernando Road and Dayton avenue during the afternoon. The short circuit, originating from cause unknown, but believed to have been caused by a flock of pigeons becoming entangled in the line, burned that line out entirely. The voltage was shut back into Receiving Station A on North Main street with damage to transformers, both in the downtown and Hollywood substations.

Complete repairs were effected in six minutes downtown and ten minutes in Hollywood and service was resumed uninterrupted without many consumers of light and power knowing that there had been any power wrong.

MISSOURIANS TO HEAR BAND
The California Junior Club band, directed by Frank Nesbitt, will entertain members of the Missouri Society and their friends next Tuesday night at Moose Hall, 1024 South Grand avenue. On Sunday the Missourians will hold their annual picnic at Sycamore Grove Park.

FEEDING RIVAL GAINS DIVORCE
Walter A. Rankin took another woman along on a trip to the mountains, and Mrs. Clara Rankin did not make a fun over that, she told Judge McComb yesterday. But when he made his wife do the cooking while he was attentive to her rival, it passed the limit of wifely condonation, she submitted. Judge McComb agreed with her, and gave her a divorce.

FINES ALARM LOCATED
The Fire Commission notified the City Council that the board has selected a location at Museum and Wrentham drive where a fire-alarm box will be installed, as requested by the residents of Museum Heights.

As sunshine ripens fruit to perfection

Controlled Roasting gives Hills Bros. Coffee the flavor of sun-dried fruit. This patented, continuous process of roasting a few pounds at a time, roasts every particle evenly and brings out the most in flavor and aroma. No other coffee can taste like Hills Bros. because none is roasted the same way.

"If only I could speak plainly to my women customers"
Says the head saleslady in a smart shop

Embarrassing to tell them—but they should know about this new process of neutralizing odor in sanitary pads. It means greater mental comfort than ever before.

WHEN shopping, in business, socially—wherever women meet the world—there is an important question of personal hygiene that can mar their happiness. They do offend others at times. And this new treatment which deodorizes every Kotex pad positively prevents such offense.

The dreadful self-consciousness that prevents carefree assumption of daily tasks; the mental discomfort is ended! Kotex scientists have discovered (and patented) a safe way to banish all odor.

Conspicuous bulkiness gone, too. That other fear—the feeling of being conspicuous—is now eliminated. Corners of the Kotex pad are scientifically rounded and tapered so as to leave no evidence of sanitary protection when worn.

Yet every advantage remains. When you need greater or less protection, you can so easily add or remove layers of filler. It is, as always, absorbent to an amazing degree. The fact that you can so easily dispose of it makes a great difference to women. And a new treatment renders it softer, fluffier, than you thought possible.

Won't you try the Improved Kotex—buy a box this very day. It is 45¢ for a box of twelve, at any drug, dry goods or department store; also obtained through vending cabinets in rest-rooms.

*Kotex is the only sanitary pad that deodorizes by a patented process. (Patent No. 1,670,387, granted May 22, 1928.)

SOCIETY

BY JUANA NEAL LEVY

An interesting invitation has come from Amsterdam, Holland, from Mr. and Mrs. William May Garland for a dinner at the Hotel Amstel Thursday, August 2. Mr. and Mrs. Garland are in Amsterdam in the interests of the Olympic Games, which are to come to Los Angeles in 1932.

En Route Abroad
Mrs. N. P. Cole of Cole Acres, Napa Valley, accompanied by her daughter, Miss Ursula Cole, is visiting in Los Angeles and has taken a suite for a few days at the Ambassador. Miss Cole was graduated recently from Miss Ransom's School in Piedmont, and with her mother is on her way to Europe on an extended tour, and to continue her studies. She arrived at the Ambassador Sunday.

For Visitors
In honor of her house guest, Mrs. Henry Dunham of Buffalo and her sister, Miss Millmore, a bridge and tea are being given on Saturday afternoon at the Women's Athletic Club by Mrs. Charles G. Stivers of 1115 Arapahoe street.

Have Been Visiting Here
Mr. and Mrs. William Ward of Nashville, Tenn., and their son, James Ward, who have been visiting a few days at the Fairmont Hotel, San Francisco, left on the 10th inst. for their home in Nashville and will go by way of Vancouver and the Canadian Rockies.

Mr. and Mrs. Ward and their son have recently been in Southern California, where they were entertained by their relatives, Mr. and Mrs. Shirley C. Ward of Los Angeles.

To Honolulu
Mr. and Mrs. Howard Rath of 84 South Plymouth Boulevard left Saturday aboard the Malolo for a cruise to Honolulu. They are planning to be away for five or six weeks.

Wedding Date
Mr. and Mrs. Edwin W. Sandison, 1110 West Anaheim Boulevard, Wilmington, announce the marriage of their daughter, Miss Gordon Allison Sandison, to Edmund Belmont Piton of Long Beach. The ceremony will take place the evening of September 6 at the beautiful home of the bride's parents, which nestles amid the colorful verdure of the tropics.

Miss Sandison was born in the mining camp of Dawson City, Alaska, and at 2 years of age came to Los Angeles with her parents and later settled in Wilmington, where she was graduated from the Wilmington High School with the class of 1923. Following her graduation

Keep Your Face Young Looking

When the pores are sluggish and the skin dark and parched, the face becomes worn and haggard. To remove the discolored skin and cleanse the pores, use daily a little pure mercuric iodine. It is a little at a time, blotchy, soiled skin, a little at a time, until freckles, tan and blackheads disappear and the under skin blossoms forth clear, fresh and velvety. Mercuric iodine was brought out by the famous French dermatologist, Dr. J. P. L. Pommery, J. W. Charleville, Charles H. Diggs, W. T. Knowlton, Victor McCarthy, Clarence R. Swethen, George H. Wood and Emery E. Olsen.

After the reception a civic progress dinner was given in the student union building, with President Von KleinSmid as toastmaster. Seated at the speakers' table with President and Mrs. Von KleinSmid were the faculty members and their wives and members of the executive committee of the division of public administration. Mrs. Raymond Bradford, Mrs. Dora Stearns, Judge Robert H. Scott, Jess E. Stearns, Dr. J. L. Pommery, J. W. Charleville, Charles H. Diggs, W. T. Knowlton, Victor McCarthy, Clarence R. Swethen, George H. Wood and Emery E. Olsen.

Miss Sandison entered the commercial college of Long Beach and prepared herself for special work in her father's office.

Mr. Piton, who served in France, has made Long Beach his home for several years, and is the only son of Mr. and Mrs. John Stewart Piton of Fairbury, Neb.

The newlyweds will make their home in Long Beach immediately following the nuptials and honeymoon trip.

Former Angeleno Wed
From Tennessee comes news of the marriage of Miss Francis Kirby-Smith Wade, daughter of Mrs. Fannie Kirby-Smith Wade, to George W. Goodson of Virginia. The ceremony took place in the chapel of the Holy Comforter at Montecito, with Dr. Mercer P. Logan, dean of the Du Bose School, officiating.

Given in marriage by her mother, the bride was lovely in a graceful afternoon gown of flesh georgette with rhinestone trimmings, worn with a picture hat of flesh-shaded horsehair, her bouquet being an armful of pink dahlias tied with pink tulle. She was attended by three young cousins, Miss Margaret Payerweather of Roland Park, Md.; Miss Elizabeth Washington Kirby-Smith of Sevens, Tenn., and Miss Mary Brooks Kirby-Smith of Tuncuba, Cuba. Little Alice Higdon was the flower girl.

Mr. Goodson chose for his best man Frank Pulley of Tarboro, N. C. Following the ceremony an informal reception was given on the lawn of the Du Bose School and Mr. and Mrs. Goodson then left for a honeymoon trip. They will return in the early autumn to reside in Sevens, where Mr. Goodson will enter the Theological Seminary to study for the ministry.

The bride is a native of Los Angeles, her family having departed in 1920 after twenty years' residence here, to make their home in Tennessee.

Progressive Dinner
Invitations were issued by President and Mrs. R. B. Von KleinSmid for a reception yesterday afternoon in the president's suite of Board administration building in honor of the visiting faculty members and their wives, who have come to Los Angeles for the division of public administration to be held at the University of Southern California from the 15th to the 18th inst.

In the receiving line with Dr. and Mrs. Von KleinSmid were the following national authorities on municipal affairs, with their wives: Dr. William B. Munro, professor of municipal government at Harvard University; Dr. Edwin A. Cottrell of Stanford University; Dr. Ira V. Hise of Yale University; Miller McClellan of Harvard University; Otto Schreiber of the University of Koebelnberg, Germany; Harland Bartholomew of St. Louis; John N. Eddy of Berkeley; Francis Miller of New York City; Abel Wolman of Baltimore; Dr. Tipton E. Shively of the University of Virginia; and Allen Wright of San Diego.

After the reception a civic progress dinner was given in the student union building, with President Von KleinSmid as toastmaster. Seated at the speakers' table with President and Mrs. Von KleinSmid were the faculty members and their wives and members of the executive committee of the division of public administration. Mrs. Raymond Bradford, Mrs. Dora Stearns, Judge Robert H. Scott, Jess E. Stearns, Dr. J. L. Pommery, J. W. Charleville, Charles H. Diggs, W. T. Knowlton, Victor McCarthy, Clarence R. Swethen, George H. Wood and Emery E. Olsen.

YOUR BABY AND MINE

By Myrtle Meyer Eldred

Mrs. Eldred will be glad to answer all questions pertaining to babies and children. A stamped and addressed envelope, with return address, will bring a personal reply.

This department offers leaflets on weaning and feeding the nursing infant, and diet for the nursing mother. Leaflets for the new baby, sleeping, washing, clothing, thumb-sucking, ammonia, colic, teething, cradle cap, skin eruptions, cod liver oil, orange juice, hives, worms, vomiting, retching and diarrhea, prunes, juice, lime water, normal, vomit, and boils and eczema. Before calling a personal visit, it is better to send a self-addressed envelope, with return address, to the above list. Mrs. Eldred will be glad to give you a personal reply.

DIRT EATING NOT AN UNCOMMON HABIT

Mrs. L.C.S. writes: "We have a little girl nearly 2½ years of age. She has a very bad habit of eating dirt. Every opportunity she takes she will stoop down, no matter where she is, and put it in her mouth. No matter how we scold or slap her for it, we cannot seem to get her out of the habit. We are very much worried about it as we are afraid she may some day pick up something that will do her grievous harm. We are writing to ask you if you can suggest some way to stop her from doing this."

ANSWER
The obvious thing to say here is that looks aren't everything. There is something wrong with the child who hardly eats at all and then wants at every opportunity to eat dirt. First of all it would be best to find out why the child has no appetite. A physical examination might reveal some interesting things, and one of them might be worms, for surely a child who is addicted to eating dirt has an ample opportunity to swallow innumerable worm eggs.

There is sometimes a lack of calcium in the diet of a child who craves dirt. The growing child who is not drinking a quart of milk a day will certainly fail to get the needed supply of calcium, so that is your first step. The child who has an ample opportunity to swallow innumerable worm eggs.

It has been suggested that salting the child's food more liberally may have a helpful effect, in addition to adding the fresh fruits, vegetables and sufficient milk to be sure that the whole diet is all right. After that all one can do is to prevent the child from eating dirt. We never think it advisable to spank a child, for as you have already discovered, it doesn't do any good.

Keep the baby on a screened porch and away from the dirt unless you can watch her constantly. This habit ought to wither up and die if it isn't allowed to flourish, and meanwhile you make every effort to improve and correct the diet and discover if there are any physical reasons for the lack of appetite. The feeding leaflet may be obtained for only a self-addressed, stamped envelope.

HEALTH AND DIET ADVISE

By Dr. Frank M. Coy

Dr. Coy will answer personal questions on health and diet, addressed to him, care of The Los Angeles Times. Please stamp, address envelope for reply.

THE CURE OF ANEMIA
In the first place I assure you that pernicious anemia is not produced because the one who is ill has not eaten enough of the iron-containing foods. The one who has developed anemia was probably not eating much the same foods as the other members of the family. And after he is anemic he has doubtless consumed large quantities of spinach, steak and even liver, in trying to supply his body with the organ iron which the blood seems to require.

Anemia is not alone caused by a lack of mineral elements. The fault with the anemic patient is that the iron and other minerals carried in the food he uses are either destroyed before it reaches the red corpuscles, or the red cells are themselves destroyed by the poison which exist in his body. In many cases it seems that the more food he puts into his body the more the red cells are destroyed. It does not take a sage to understand that something in the body is destroying the iron and other minerals. These elements are a pleasant supply of green vegetables which, of course, are needed by everyone, whether or not they have a tendency to anemia.

At the same time, the patient must take up a regular course of physical culture and do everything to increase the functional activity in every muscle and organ of his body. Blood tests should be taken frequently, and if there is any material loss from the blood cell increase, it is advisable to take another short fast as before, and then return to the diet, alternating with the fasting and dieting for some time if it seems necessary until all of the bodily toxins which may have been responsible for the original trouble are entirely removed.

QUESTIONS AND ANSWERS
Q: E. O. H. asks: "What would cause a dark spot to appear on each cheek about the size of a dime?"
A: Dark spots are caused by some faulty formation of color pigment in your skin. This is usually due to faulty metabolism, and can be prevented by a correctly balanced diet.

Easier on Hairnets
So many articles of clothing are slipped over the head these days that it is almost fatal to those of us who still wear hairnets. Try spreading a large silk handkerchief over your head and then slip on your frock. You will find this will protect your hair and net from becoming disarranged.

Pass It Along
Custard cups are good molds for the jellied cups are good molds for too much handling. Poorly rinsed clothes are not only ugly in color but are more apt to scorch when ironed.

Place the cocoon in the oven until it is warm. Then a slight blow will crack it easily. A tiny muslin bag containing orris root balled along with the handkerchiefs will give them a delightfully delicate perfume.

Salient Points of the Play
Trick 1. For lack of a better opening, South leads the top card of his worthless Club suit. Declarer cannot afford to take the trick with Dummy's Ace, since by thus relinquishing control of the suit, two tricks must be lost in it by subsequent play and game cannot be made.

Trick 2. North realizes that Declarer probably has but one Diamond and that a Diamond lead will establish the King in Dummy, upon which Declarer could later discard a losing Club. North, therefore, leads a Spade rather than a Diamond.

Trick 3. Declarer here must decide upon his line of play. One losing card in his hand must be discarded if game is to be made. Obviously the Spade suit offers the best chance of establishment, and the best way to proceed toward such establishment would seem to be by the "squeeze" route. Accordingly Declarer plays out his trumps.

Trick 10. North discards a Spade, realizing that Declarer will finesse the Jack. He realizes that a discard of his losing Diamond would induce Declarer to lead a Club, which would force North, upon taking the trick, to lead away from the Spade suit for the loss of two Spade tricks.

You don't expect a very gradual smile from the hat check girl when you hand her a thin dime. Yet that same slender ten-cent piece would do two weeks' washing at home in modern electric washer... and wouldn't mother mind!

"Electricity is Cheap... Use More of It"

Electricity is cheap, wherever you live... as cheap as the sun in the sky. Because of this "cheap" electricity has been made more available to the average citizen. And Central-Southern California is the country that has made this possible. It costs more, of course, to carry sparsely settled sections, but it costs less to carry densely settled sections. And this is the reason why electricity is so cheap everywhere, no matter where you live. Electricity is cheap, wherever you live... as cheap as the sun in the sky.

"Joy of Living"

FULL of the "Joy of Living", are
healthy little girls and boys.
Clear-eyed, rosy-cheeked.
Happy! And Heinz Rice Flakes
are the kind of food that keeps
them so.

First of all, this delicate new
cereal tastes so good. Crispy;
crunchy; like golden-brown
nutmeats.

But it's "so good" for another
reason, too! For Heinz Rice
Flakes are naturally "laxative"
by an entirely new process in
cereal-making. This process
was developed and is owned
exclusively by Heinz. It so uti-
lizes the natural roughage of the
rice itself as to impart to the
flakes the qualities of a mild,
natural laxative.

The whole family will re-
spond to the new taste-thrill of
Heinz Rice Flakes. And Heinz
Rice Flakes will respond to the
needs of the whole family by
helping Nature to keep them
in the pink of health—full of
the "Joy of Living".

and seven-eighths cupful of flour,
one-quarter of teaspoonful of so-
da, one teaspoonful of lemon juice,
the whites of six eggs, one and one-
quarter cupful of powdered sugar,
one teaspoonful of almond extract.
Cream the butter, add gradually to
the flour that has been mixed and
sifted with the soda, then add the
lemon juice, beat the whites of the
eggs until stiff, add it; sugar grad-
ually and combine the two mix-
tures, then add the extract, bake in
a loaf cake pan that has been oiled
and floured, for one hour.

BANANA CAKE
One-fourth of a cupful of but-
ter, three-fourths of a cupful of
powdered sugar, two eggs, two ba-
nanas, one cupful of flour, three
teaspoonfuls of baking powder.

Cream together the butter and the
sugar; add the eggs well beaten,
and the bananas that have been
mashed to a pulp and pressed
through a sieve. Sift the flour with
the baking powder and mix in a
little at a time, mix thoroughly.

place in layer cake tin and bake
in a medium oven.
(Note: This does not make a
large cake but is very tasty and the
recipe can be easily doubled. Do
not cut down the amount of bak-
ing powder as it is necessary on
account of your banana pulp.)

BANANA BUTTER CREAM
FILING

One-half a cupful of butter, one
and one-fourth cupful of pow-
dered sugar, one-half a cupful of
mashed banana pulp, cream the
butter, and wash well with cold
water to remove the salt. Add the
sugar a little at a time, cream
well together, then add very slowly
the mashed banana pulp.

PEACH SOUFFLE

F. S., Los Angeles, Cal.: Six ripe
fresh peaches, six eggs, one cupful
of thick cream, half a pound of
marshmallows, one large banana,
and the juice of one orange, peel
the peaches, stone and mash them
to a pulp; also mash the banana,
combine the two mixtures and add
the cream, the marshmallows and
the juice of the orange, mix to-
gether. Separate the six eggs, beat
the yolks until light and creamy;
then beat the whites until stiff and
dry; then add the well-beaten vol-
ts to the fruit pulp; beat thoroughly,
place in a saucepan, cook over a
brisk fire until it puffs up high,
then stir in the cream and when
thoroughly heated through again,
add the marshmallows whole and
when heated through add the stiff-
ly beaten whites of the eggs and
it is ready to serve at once.

ALMOND PIE CRUST

M. W. Covina, Cal.: Sift together
one and one-half cupfuls of flour,
two tablespoonfuls of sugar, and
one-fourth of a teaspoonful of salt,
work into this with a pastry cutter
one and one-half cupfuls of but-
ter, and three tablespoonfuls of al-
monds, that have been put through
a meat grinder and then pounded
fine. Work lightly until the mix-
ture is like coarse meal, then add
one egg and stir in very thorough-
ly. Add just enough ice water, a
very little at a time, to hold the
pastry together. Line a deep pie
dish and place in the refrigerator
for two or three hours before bak-
ing in a hot oven. Bake until half
done, then remove from the oven
and fill.

Your almonds must be thor-
oughly dried before grinding; dry
them in the oven but be very care-
ful they do not burn.

PEACH CUSTARD FILLING

Peel the peaches, and cut them in
halves, poach them in a syrup made
by placing in a saucepan one cup-
ful of sugar, and one-half a cupful
of water, bring to a boil; drop
the halves of peaches in the syrup
and let them cook slowly until they
are practically transparent, add
one or two of the peach kernels
while they are simmering; scald
one cupful of milk and pour the

scalded milk over two well-beaten
eggs, add a few grains of salt and
return to the double boiler, add
two tablespoonfuls of cornstarch or
potato flour that has been diluted
with a little cold water. Boil down
the syrup in which the peaches
were boiled until you have about
one-half a cupful and add this to
the custard and allow to cook un-
til the custard is quite thick. Place
the peach halves in the half-baked
pie shell, pour the custard over
them and finish baking in a me-
dium oven.

RYE BREAD

Rye bread is a very tricky thing
to handle, and must be baked as
soon as it is ready. By putting it
in the ice box and allowing it to
stand until the next morning it
soured and that is the reason it
tasted of the yeast and was bit-
ter.

RAISIN DRESSING FOR ROAST

GOOSE

A. N., Los Angeles, Cal.: One
cupful of soft bread crumbs, one
cupful of chopped apples, one cupful
of raisins, chopped if large, or
seedless, one tablespoonful of
minced onion, one teaspoonful of
salt, one-half of teaspoonful of pep-
per, two tablespoonfuls of melted
butter, and two slices of fat salt
pork. Place the salt pork in a
sauce pan and render out; add the
butter then the rest of the in-
gredients, mix all together and stuff
the goose.

SWEET PICKLED PEACHES

E. E. W., Carpinteria, Cal.: Place
in a saucepan five cupfuls of cider
vinegar, one bag of spices, con-
taining one blade of mace, two
sticks of cinnamon, twenty-four
whole cloves, and one sliced le-
mon, bring to a boil and stir in
slowly six pounds of sugar, when
the sugar is thoroughly dissolved
drop in a few at a time, twelve
pounds of sound peaches, that
have had the bloom rubbed off with
a coarse towel. Cook until the
peaches are tender, skim out and
place in a jar, boil the syrup for
ten minutes and pour over the
peaches, let stand for three days,
drain out the peaches, pack them
in glass jars, boil the syrup until
thick, pour over the peaches and
store in a cool place. Two or
three cloves may be stuck into each
peach if desired.

PICKLED PEARS

Peel eight pounds of pears, with
a silver knife, drop them into cold
water to which has been added a
little lemon juice, make a syrup
of three cupfuls of sugar, two
cupfuls of vinegar, and four
pounds of sugar, place in a
cloth bag two teaspoonfuls
of cloves, one blade of mace, two
teaspoonfuls of cinnamon, and
a one-inch piece of cinnamon.
Place the spices in the syrup and
cook for two minutes. Drain and
add the peeled pears, and cook
until tender, place the pears in a
jar, cover with the syrup and let
stand for three days. Drain the
syrup and boil ten minutes. A lit-
tle lemon rind may be added to
this. Pack the pears in jars and
pour over the hot syrup; seal.

West's Music
Better, Says
Uhl After Trip

"Hollywood's 'Symphony Under
the Stars' is the finest musical treat
in America," exclaimed E. H. Uhl,
president of the Southern Cali-
fornia Music Company, upon his
return from New York. "In
New York Mrs. Uhl and I at-
tended a concert at the stadium
and the constant rustling of fans
and papers and every other thing
in an effort to keep cool de-
tract immeasurably from the
music. Just go
to New York if you want to know
how good the Hollywood Bowl at-
traction really is."

"And don't let them tell you that
styles in New York are any more
up to the minute than they are
right here in Los Angeles," said Mrs.
Uhl. "I took an extra trunk to
New York because I expected to
bring it back with a lot of new
creations. The trunk is coming in
empty. Heaven save me from New
York in the summer time."
"Business conditions," said Mr.
Uhl, as he stepped from the Union
Pacific Los Angeles Limited, "are
not so good in the East as they are
on the Pacific Coast."

Contract Error
Gets Rescission
of Improvement

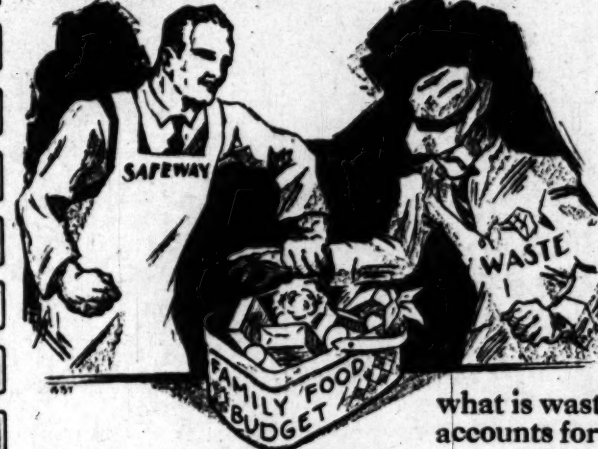

Unwilling to tackle the first Mat-
toon Act improvement after having
been awarded the contract for the
improvement of South Sherman
Way from Ventura Boulevard to
Beverly Glen Boulevard, the George
R. Curtis Paving Company yester-
day obtained a rescission of the con-
tract from the Board of Public
Works. Minor errors were pointed
out in the proceedings.
The contract price for the im-
provement of Sherman Way was
more than \$115,000, and the con-
tractors felt that the amount in-
volved was too much to undertake
with even the most minor errors.
The improvement provides for
street paving, sewers, storm drains,
sidewalks and curbs.
The City Council yesterday or-
dered the present proceedings for
the South Sherman Way improve-
ment abandoned on account of the
errors. The proceedings were
brought under the Mattoon Act. The
new proceedings, to be started at
once, will be under the Improve-
ment Act of 1911.

ACE PREDICTS NEW AIR SPEED

Rickenbacker Expects 500
Miles an Hour Soon

Declares Diesel Engines Will
Change Motordom

He Recommends City Deck
River for Airport

"Five hundred miles an hour as a cruising speed for airplanes will be realized within two years," said Capt. Eddie Rickenbacker at the Baltimore yesterday.

"I predict that aviation will introduce the Diesel engine to the automobile industry and that this engine which has experimentally reduced the weight to eighteen pounds per horsepower, will revolutionize the automotive industry."

The captain is here to attend the California conference of the sales units of the Cadillac Motor Car Company, of which he is sales manager of the La Salle division.

"Of course, I am interested in aviation. No automobile-race driver could feel otherwise," he said. "We have learned scientifically that there is practically no limit to speed in the air."

"Now we are but in the beginning of speed. However, the advancement of aviation is being handicapped by the lack of airports."

"Can you imagine driving an automobile across the continent if there were very few service stations? Los Angeles is missing its greatest opportunity in failing to deck the Los Angeles River. There is ample space at many points to establish, by decking the river, an airport which would be adjacent to the core and center of the city."

Travel Record Set
Exodus to Pacific Coast Breaks All
Precedent Thus Far

Recent predictions by travel specialists that 1934 would break all travel records to the Pacific Coast find verification in the official government report on travel into Zion National Park just issued by E. T. Scoyen, park superintendent.

All July records were shattered last month, says Mr. Scoyen. A total of 7064 persons entered Zion during the month. Of this number 1028 came by the bus, and 6036 by the train. The bus company from the Union Pacific branch line at Cedar City, while 5526 arrived in private auto. Rail travel increased 45 per cent over July of last year and auto travel increased 14 per cent.

The total travel for the season to July 31 was 19,328, and exceeded last year's record by 5723, or 43 per cent.

Unless Adam Wilkinson and his porcupine find new quarters forthwith, they will be in contempt of an order issued yesterday by Judge Bowron, at the request of Mrs. Helen Wilkinson, who is suing for divorce.

"I want him and his porcupine off the premises," Mrs. Wilkinson declared. "He scared me to death with that beast. I found it in my bed one night. He keeps it in the garage now."

Judge Bowron ruled that it would be in the interest of peace if Wilkinson and his porcupine would stay elsewhere, pending trial of the divorce action, and ordered him to move.

City Club Supports Plan

of State Problem

The appeal of the State Health Department for \$75,000, to be used in carrying out "Sewage Disposal Program," was indorsed by the State Affairs section of the city club yesterday, following an address by W. T. Knox, sanitary engineer for Los Angeles city.

"The rapid growth of population along the coast, especially in Los Angeles county, makes sewage disposal a matter of vital interest to every citizen," said Mr. Knox.

"The State could well afford to employ the State engineers, together with competent chemists, biologists and other scientists, to make an intensive and extensive study of the situation. The various municipalities and communities are willing to spend whatever money may be necessary for sanitary purposes, provided they know how to proceed."

"So far our Southern beaches have been kept safe from contamination by sewage because of our splendid outfall system," said the speaker. "The small amount of sewage occasionally found on the beaches comes from oil wells in the bottom of the ocean, and it is hoped that some day a way will be discovered to prevent its washing ashore."

Commission Unable to Fix
Reallocation

Chairman Said to Hold Back
Final Decision

Television Channels Will Be
Safeguarded

BY DR. RALPH L. POWER

The Radio Commission, despite extensive publicity, has been unable to arrive at a plausible arrangement for the reallocation of wave lengths.

Washington dispatches say that Commissioners Lafont and Caldwell shift the blame to the chairman, Ira E. Robinson. Judge Robinson, who is a legal authority and knows practically nothing about radio, seems disposed to make no step until he finds out what it's all about.

One of the commissioners says: "An announcement that television channels will not be given out freely, is followed closely with another that the group will limit experimental licenses to research work of assured value."

Experimental licenses will be given only to applicants who can convince the commission that they will carry on work with definite development or discover facts not already known. Such a procedure, however, might limit the field to those who have already "arrived" in the line of radio investigation and might sadly hamper those who are trying to make their mark.

One of the commissioners says: "I have read carefully the statements filed with your application, but I cannot find any definite evidence that such work will be accomplished if granted a license. I believe the commission is forced to limit such licenses to cases where the applicant has already made some progress in the work."

"Of course, we thoroughly encourage experimental work. The development of radio has come from experimentation and any check upon the freest use of such experimenters would be fatal to the progress of the art."

PATERNITY SUIT UNDER SUBMISSION

Woman Seeks to Force
Uncle to Pay Support of
Putative Son

Judge Dunne in Superior Court
had under submission yesterday one of a series of three suits pending in an effort to establish the right of William Hardy, 15 years of age, to support from Gerhardt Dickhoff, 62 years of age, of Long Beach and Detroit.

The suits are being pressed by Katherine Williams, mother of the youth and niece of Dickhoff, who says the latter is her son's father. In the suit pending before Judge Dunne she asks for an allowance of \$250 a month from Dickhoff's estate, which is involved in the probate court because Dickhoff has been declared incompetent by the court in Detroit.

The guardian under the Michigan order is seeking to have Dickhoff's California assets, consisting mostly of securities, removed to Detroit without Mrs. Williams' assent. The property involved is said to be worth \$167,000.

Judge Dunne expressed uncertainty as to his jurisdiction to support for the boy from Dickhoff's estate, in the lack of a judicial determination of the boy's parentage. In the meantime, however, another action, is being for a decree declaring Dickhoff to be the father of her son.

MOOMAW TO MAKE MORMON FILM

Marie Prevost and Ben Lyon Will Be Co-Starring;
Nagel Plays Lead in "Romance," Santell Directs;
Picturephone Sound Device Used by Sam Sax

BY GRACE KINGSLEY

Daw look and so excellent was her work in the initial featurette which Charles Rogers and H. A. F. Brown produced for Educational Films with Joe Brown supervising that she has been signed for five additional films of the same series.

Miss Daw is remembered for her very excellent work in many pictures produced by Metro-Goldwyn-Mayer and other companies.

Charles Farrell is Building

Whether Charles Farrell is preparing to wed, as some of his friends assert, or not, the suspicious fact remains that he is building a beautiful home in the San Fernando - La Grange district, near the home of Richard Arlen and Jobyna Ralston.

The house is of Spanish type, and promises to be one of the handsomest in that section of beautiful dwellings.

Wallace MacDonald to Act

Wallace MacDonald, who cannot be called a habitual villain, will contribute the sin element to "The Pearl Story," being made by Tiffany-Stahl. This is a South Sea Island romance being directed by Elmer Clifton.

Stanley Smith in Pictures

Just by way of being forthcoming, we want to prophesy that ere long the picture gallery of good-looking film sheiks will be adorned with the addition of Stanley Smith's portrait.

Young Smith is a Hollywood boy who went back to New York and made good on the stage in "What Price Glory." After that he went into eastern stock as leading juvenile. Now he is back in town and has had several screen tests made by Paramount, by Metro-Goldwyn-Mayer and other companies. It is expected that he will sign a contract within a few days, with either one or other of these firms.

Arthur Lubin Departing

That highly pleasing and talented actor, Arthur Lubin, is to go to New York the latter part of this week, where he is under contract to appear on the stage in a new play. Lubin has been playing in pictures this summer, his latest one being the lead in "Times Square."

Wallace MacDonald, who cannot be called a habitual villain, will contribute the sin element to "The Pearl Story," being made by Tiffany-Stahl. This is a South Sea Island romance being directed by Elmer Clifton.

Stanley Smith in Pictures

Just by way of being forthcoming, we want to prophesy that ere long the picture gallery of good-looking film sheiks will be adorned with the addition of Stanley Smith's portrait.

Young Smith is a Hollywood boy who went back to New York and made good on the stage in "What Price Glory." After that he went into eastern stock as leading juvenile. Now he is back in town and has had several screen tests made by Paramount, by Metro-Goldwyn-Mayer and other companies. It is expected that he will sign a contract within a few days, with either one or other of these firms.

Arthur Lubin Departing

That highly pleasing and talented actor, Arthur Lubin, is to go to New York the latter part of this week, where he is under contract to appear on the stage in a new play. Lubin has been playing in pictures this summer, his latest one being the lead in "Times Square."

Exodus to Pacific Coast Breaks All
Precedent Thus Far

Recent predictions by travel specialists that 1934 would break all travel records to the Pacific Coast find verification in the official government report on travel into Zion National Park just issued by E. T. Scoyen, park superintendent.

All July records were shattered last month, says Mr. Scoyen. A total of 7064 persons entered Zion during the month. Of this number 1028 came by the bus, and 6036 by the train. The bus company from the Union Pacific branch line at Cedar City, while 5526 arrived in private auto. Rail travel increased 45 per cent over July of last year and auto travel increased 14 per cent.

The total travel for the season to July 31 was 19,328, and exceeded last year's record by 5723, or 43 per cent.

Unless Adam Wilkinson and his porcupine find new quarters forthwith, they will be in contempt of an order issued yesterday by Judge Bowron, at the request of Mrs. Helen Wilkinson, who is suing for divorce.

"I want him and his porcupine off the premises," Mrs. Wilkinson declared. "He scared me to death with that beast. I found it in my bed one night. He keeps it in the garage now."

Judge Bowron ruled that it would be in the interest of peace if Wilkinson and his porcupine would stay elsewhere, pending trial of the divorce action, and ordered him to move.

Charles Farrell is Building

Whether Charles Farrell is preparing to wed, as some of his friends assert, or not, the suspicious fact remains that he is building a beautiful home in the San Fernando - La Grange district, near the home of Richard Arlen and Jobyna Ralston.

The house is of Spanish type, and promises to be one of the handsomest in that section of beautiful dwellings.

COURT PASSES STREET BONDS

Approval Given Widening Project at Pasadena

City Treasurer Gets Order to Sign Colorado Issue

Judge Bishop in Answer to Legal Objections

PASADENA, Aug. 13.—Clearing up various legal questions which have delayed the completion of the \$3,000,000 Colorado-street widening project, Judge Edwin T. Bishop of the Superior Court today granted a writ of mandate ordering City Treasurer B. H. Rhodes to sign the improvement bonds. With the favorable decision from the court it is now believed by Special Counsel Roscoe R. Hess that the widening of the street between Broadway and Orange Grove avenue will be completed without further legal controversy.

CRITICISM OVERULED
Judge Bishop in his decision answered several points raised by attorneys. In alluding to the objection that there was an insufficient description of the assessed district the judge ruled that the resolution of intentions adequately complies with the statute requirement. The fact that the date of the first interest payment was not given "is not fatal," according to the ruling, "in that knowledge of the date comes to those interested in the terms of the statute, and the failure to republish the date in the resolution would not result in any loss to them."

The court also holds that although the act contemplated the bidding of the bonds competing as to both premium and rate of interest, objections to this asserted failure in the proceedings "could have been made timely" to the Board of City Directors, and "such irregularity should not be the basis of objection."

PRECEDENT CITED
As to the ruling in the case of the city of Pasadena vs. McCallister, to the effect that the city could not carry on a street-widening proceeding that would incur an indebtedness in excess of current revenues, Judge Bishop's decision recites that "nowhere does this section provide that the liability is invalidly incurred if no fund is provided to meet it, but only that it must not exceed the revenues, and, therefore, the fact that a fund was not set aside until after the hearing is of no significance."

Judge Bishop's ruling is said to have cleared up completely the questions arising from the assessments against defendant Parkway and Carmelita Park, which, it was feared, might necessitate the starting of new proceedings.

ESTATE DIVIDED

Father Wills \$3000 Extra to Daughter Who Kept House

SANTA ANA, Aug. 13.—The \$80,000 estate left by the late James F. Spotts of Orange was equally divided, under his will, between his six children except for a clause leaving his daughter, Emily Spotts, 633 West Chapman avenue, Orange, the sum of \$3000 additional, for her services as his housekeeper and business assistant during recent years.

This was revealed today when the will was filed for probate in Superior Court, through Attorney B. E. Tarver of Santa Ana. The estate includes 160 acres of land in Fresno county, two houses and five lots in Orange, and stocks and securities.

The heirs are: Miss Emily Spotts, Mrs. Irene Irwin, Mrs. Alice Flint and Mrs. Elvira Kurl, all of Orange; Mrs. Lydia Oliver, Santa Ana, and George Spotts, Imperial, Neb.

W.C.T.U. PRESIDENT IN GLENDALE EXPIRES

GLENDALE, Aug. 13.—Mrs. Ruby Jordan Smart, 80 years of age, for ten years president of the local branch of the Women's Christian Temperance Union, died suddenly last night at her home, 110 North Olive street, shortly after returning from an automobile ride with relatives.

Mrs. Smart was the widow of Rev. Almona B. Smart, who died last October. She is survived by four daughters, Mrs. Kara S. Root and Mrs. Bertha Seal of this city, Mrs. Ruby Walbridge of Los Angeles and Mrs. Leoua Schweizer of Chicago. Funeral services will be postponed until the relatives here learn whether Mrs. Schweizer will be able to come west for the services.

NEWPORT BEACH, Aug. 13.—Dr. Philip Lovell, editor of the "Care of the Body" section of the Los Angeles Sunday Times, who has a beach home here, will be the principal speaker at next Wednesday's meeting of the Newport Beach Exchange Club. Dr. Lovell will speak on "Good Health by Natural Methods," it was announced today by G. C. Macdonald, secretary of the Exchange Club.

Commodore J. A. Beek will be a guest at the luncheon, which will be at the Harbor Yacht Club, and will talk for a few minutes on the eighth annual Tournament of Lights next Sunday night, and on the international starboard regatta, August 31 to September 7.

AUXILIARY TO NOMINATE

ARCADIA, Aug. 13.—Nominations for candidates for the annual election to be held in September will take place at a regular meeting of the American Legion Auxiliary Thursday evening at the City Hall. Mrs. Walter Best, vice-president, will preside at the meeting.

HORSE HOLDS UP TRAIN

Animal's Foot Becomes Wedged on Track and Southern Pacific Railroad Schedule Marks Time While Tools Are Located to Effect Rescue

VENTURA, Aug. 13.—Southern Pacific train No. 70 was thirty minutes late this morning because one of Juan Ruiz's horses caught its foot between the rail and a culvert at Dulah, on the Rincon. The whole thing started when W. W. Yates of Monrovia, horse lover, polo player and owner of a fine string of polo ponies, saw three horses on the right of way at Dulah about 9 a.m. as he was driving down the State highway. He investigated and two of the horses ran up the hill. The third was anchored

and in struggling to get away, fell, twisting its foot badly. Yates was unable to rescue it, but hurried to Ventura, where he called officers. He also notified the station agent at the local depot. He found the horse so tightly caught that he commanded the crew of No. 70, who had been warned by the station agent. There was not a saw on the train and only two dill axes.

Finally the men stopped a truck and borrowed two saws and a pinch bar to release the horse.

VENTURAN RESCUES GIRL

Youth Doesn't Stop Long Enough to Remove Boots in Dash Into Surf for Child Beyond Breakers

VENTURA, Aug. 13.—Jack Emery, young Ventura man, was the hero of the beach today. At the foot of California street he swam to the rescue of an 11-year-old girl as she battled helplessly against the outgoing tide. The girl, with two girl companions, was out beyond the breakers when she tried to swim ashore. She became frightened and called for help.

There were several people on the beach, but none went out after the little girl who had been crying for help for nearly ten minutes, according to bystanders.

The call reached Emery's ears as he stood with a friend in front of the bathhouse. Hurrying to the scene, he plunged into the water without removing even his heavy boots and swam to the girl, after which he brought her to shore and safety.

EX-EMPLOYEE HELD IN BURGLAR TRAP

OXNARD, Aug. 13.—Following a series of petty thefts in which cash was taken from the cash register in the sales department, H. L. Taylor, manager of the Union Ice Company, had Deputy Sheriff Charles T. Clements set a trap for the burglar which worked.

The call reached Emery's ears as he stood with a friend in front of the bathhouse. Hurrying to the scene, he plunged into the water without removing even his heavy boots and swam to the girl, after which he brought her to shore and safety.

TWO MEN ARRESTED ON LIQUOR CHARGE

EL MONTE, Aug. 13.—It cost L. D. Robert Stephens, an Arcadia poultryman, and W. J. McCold, a Compton electrician, \$300 each to visit a dance hall at Hynes, Stephens and McCold were arrested by District-Attorney operatives, A. L. Perrier and George Art, after complaints had been phoned into the office that dancers at the hall were showing unusual liberality. Perrier and Art testified in Justice Court today that they found Stephens and McCold selling whisky to the merry-makers behind the building and Perrier produced the bottle in court that he asserted he purchased from McCold. Judge F. O. Wilson fined the defendants \$500 each but suspended part of the fine as it was said to be their first offense.

SANTA ANA BUDGET HEARING TO BE SET

SANTA ANA, Aug. 13.—The county Supervisors are expected tomorrow to set a date for a public hearing upon the new county budget, when taxpayers will be privileged to appear and express their views or requests concerning the various items of the budget.

The new budget law, in operation this year for the first time, provides that on or before the 20th inst., the Supervisors must publish notice of a public hearing, as well as notify the taxpayers that copies of the budget are available at the office of the County Clerk for all who wish them.

ONTARIANS TO FACE BILLS FOR WEED WORK

ONTARIO, Aug. 13.—City officials are making ready to collect from Ontarians who thought they didn't need to do as suggested by officials early in the summer to clean the weeds and rubbish from their lots. After having been given due notice of the weeds and rubbish, city workmen did the job for property owners who failed to comply with the requests. Bills are now being prepared covering 800 lots which were cleared off by the city. The bill amounts to \$2100.

PASADENA VICTORIOUS

Crown City Police Pistol Marksmen Win Over Crew of Los Angeles Sharpshooters

PASADENA, Aug. 13.—As the result of their victory yesterday over the Los Angeles Police Department's championship pistol team, one or more members of Police Chief Charles H. Kelley's aggregation may be sent to Camp Perry, O., in September, to compete for national honors. If funds can be obtained, Patrol-Extra's organization by the score of man Clair M. Corbin, star marksman of the local police force who last year won one first place medal at Camp Perry, and possibly one other Pasadena police officer will be authorized to make the trip next month, according to city officials.

In yesterday's "duel" Pasadena defeated Police Chief James E. Davis.

TWO HELD IN FATAL AUTO CRASH

Drivers of Both Machines Arrested After Collision Near Seal Beach

SEAL BEACH, Aug. 13.—Mrs. Lena Lorocco, 23 years of age, of 950 East Third street, Long Beach, is dead, and two men are held in jail for investigation, as the result of an automobile accident that took place early today near the Los Angeles Gas and Electric plant at the Orange county line.

Details of the wreck were not reported to Orange county authorities. The accident occurred on the Pacific Highway following the wreck, which took place just after midnight. Both of the drivers concerned with the accident were taken into custody for investigation. They are O. A. Burke, 1241 East First street, Long Beach, companion of Mrs. Lorocco, and H. E. Miller, 1022 Lewis street, Long Beach. Miller is held in the Long Beach jail and Burke is in jail here.

Miller's car was said to have swerved suddenly out of a line of traffic, colliding with Burke's machine.

SANTA MONICA COUPLE HURT AS CAR SKIDS

OXNARD, Aug. 13.—Mr. and Mrs. H. D. Powell of Santa Monica are in St. John's Hospital here today in serious condition as a result of an automobile accident in the Conejo district. Powell and his wife were on their way to Santa Barbara and, according to reports, were driving swiftly when the crash occurred. Apparently Powell could not make a sharp turn and the machine veered to the right, striking a fence and skidding.

Both occupants were pinned in the wreckage. Powell received a possible fractured skull and other injuries and his wife was badly hurt when both her legs were crushed. The wreck took place on the local hospital by J. L. Dean of Conejo.

Officials Probe Freak Accident That Kills Man

UPLAND, Aug. 13.—Officials of the county Coroner's office met here today with police officials and others to study one of the strangest fatal accidents in San Bernardino county. Theodore Engstrom, 30 years of age, Alta Loma well driller, was killed by his automobile when he forgot that he had left it in gear when he cranked the engine. According to evidence at the inquest the car knocked Engstrom down when he cranked it. The man was unconscious, the front wheels passing over his body, the left rear wheel resting on his neck. At this position the machine became wedged against a tree, the right rear wheel spinning in the dirt.

Engstrom was trapped under the machine for an hour, it was believed. The wheel was still spinning when discovered. It had dug itself into the ground. The man was killed by the axle and had worn the tire to the rim. The left wheel could not turn. Flying dust clouds attracted a group of children from a nearby ranch. They ran to the scene and gave the alarm.

'Unloaded Gun' Injures Youth

SAN DIEGO, Aug. 13.—The victim of another "gun that wasn't loaded," Chester Peterson, 17-year-old high-school student, is believed to be dying in the County Hospital. He was shot in the chest by a friend, Clarence Hodges of Los Angeles. The bullet passed through Peterson's neck. He is a high school student and is believed to be a friend of the victim.

REDLANDS AIR MAIL IN STEADY GAINS

REDLANDS, Aug. 13.—Postmaster James F. Wheat says that steady gains have been made in the past several months in air mail here and believes that there will be a greater gain after more people learn of the recent reduction in the rates.

There is also some hope of having all the air mail gathered at Redlands for this section and then flown to Los Angeles to connect with the plane there so that several hours can be gained in that way, it was said.

AMUSEMENT COMPANY WANTS ROLLERDROME

CULVER CITY, Aug. 13.—Templing offers from an amusement syndicate to purchase the RollerDrome, newly launched roller-skating enterprise just west of here, have been refused by Chester Park Association president, according to a bulletin issued today by rink officials. Crawford, the bulletin stated, refused the offer because of his inability to locate a new rink as strategically located. Should Crawford locate in any other place save the beach, he would be necessary for him to install a refrigeration cooling plant.

VALLEY JOINS LEAGUE

BIG BEAR, Aug. 13.—In the interests of conservation of the natural resources of Big Bear Valley a group of children from the Valley League of America has been formed. Wright M. Pierce, ornithologist, and W. H. Jones signed the charter members among the men of the valley.

PROTEIN BANDIT "OFF DIET"

Pasadena's Bacon and Egg Thief Breaks Record As Can of Loupy Spinach is Added to Meal Regularly Stolen Nightly for Month

PASADENA, Aug. 13.—After subsisting on a diet of milk, bacon and eggs for more than one month, this city's "protein" burglar lost caste last night when he is reported to have opened and eaten a can of spinach in the L. W. Mayo residence, 80 North Meredith avenue. With clock-like regularity the thief, now revealed as a kidnaper of common vegetables, has entered a Pasadena home each night for the last thirty-five nights and cooked himself a bacon-and-egg dinner, which he habitually washed down

AUTO CRASHES SET RECORD

Foothill District Reports Large Number of Accidents and Victims in Hospitals

MONROVIA, Aug. 13.—With three persons in the Monrovia hospital and five cars damaged, automobile accidents today broke all records at the police station, according to Chief of Police Frank Scott.

Injured persons at the hospital are Mrs. L. W. Blake of 2905 Ivanhoe Drive, Los Angeles; Mrs. Olyvia Streeter and her son of 3811 Fernside avenue, Los Angeles. All received serious lacerations about the face, neck and hands.

The Blake car, coming west on Foothill Boulevard, collided with a machine driven by Forest Higgins of this city, as the latter turned in front of the oncoming car to make a turn at Wheeler's Inn. The accident occurred at 10:30 p.m. and was investigated by Officer W. Lotz, who took the injured women to the hospital.

An automobile owned by Ernest L. Loret, ranger in Fish Canyon, parked on the south side of Foothill Boulevard, was struck by a machine driven by J. J. Haley of 21 South First street, Alhambra, last night at 11:30 o'clock. According to police reports, Haley was avoiding hitting a car in front of him, swung out and collided with Loret's car, which was badly damaged.

R. W. Stappman, 800 Tenth street, San Bernardino, was treated for severe body bruises and cuts this morning following an accident on Foothill Boulevard near the United Realty Company, according to reports of Deputy Constable Ross Woodland.

Stappman said to have been on his way to Santa Barbara, was traveling east on the boulevard when he struck a standstill in an orchard on the south side of the road. He was painfully bruised and his car wrecked.

Smoking Taboo for 'Jag' Cases

GLENDALE, Aug. 13.—Just because some prisoners in the local jail managed to set fire to their bunks while they were locked up on charges of intoxication, Chief of Police J. D. Fraser has decided that in future those who land in the city jail by the liquor route will have to turn over their matches and smoking materials when they are lined up at the desk to be booked, and that no more smoking on the part of those who cannot pass the test for sobriety will be permitted. Two recent outbreaks of fire in the cells damaged the bunks and the rest of the furniture, and now the police of tobacco will draw from those prisoners who cannot light a cigarette without spilling sparks and lighted matches on their beds.

Soldiers Kept Out of Area in San Bernardino

MARCH FIELD, RIVERSIDE, Aug. 13.—In an official order issued over the signature of Maj. M. F. Harmon, commandant of March field, soldiers are forbidden to enter a "restricted area" of San Bernardino. The order, however, states that the service men will be permitted to attend school year after year in the designated section of the Gate City provided they do not "enter before 7:30 p.m. and leave by 7:30 p.m."

According to Maj. Harmon's orders, the "restricted area" is all that section of San Bernardino "bounded on the north by Second street, on the east by street, and extending to the south and east city line."

"The provost-marshal in San Bernardino will by frequent patrol satisfy himself that the provisions of this order are not violated," the announcement reads. "This order will be conspicuously posted on the bulletin board of each squadron." San Bernardino police are said to have asked March Field authorities to issue the order banning the soldiers from the district outlined by Maj. Harmon.

Southerland Dam Work Halted by Lack of Money

SAN DIEGO, Aug. 13.—Work on Southerland Dam will cease immediately because it is apparent the city has no funds to carry on the construction, the Edwards, Wilder and Dixon Company notified the Council today. The work was curtailed by orders of City Engineer H. N. Savage, has resulted in losses for the contractors, the Councilmen were told.

Officials of the contracting concern said they expect definite proposals from the Council within a few days. Under the present uncertain conditions it is impossible to continue, they asserted. The Council referred the matter to Engineer Savage.

PASADENA K. OF C. TO DINE SCIENTIST

PASADENA, Aug. 13.—In recognition of his services to science, Knights of Columbus of Pasadena will tender a dinner on the night of August 16 to Dr. James Macdonald, president of the Jesuit Seismological Association of the University of St. Louis. The affair will be held at the Vista Del Arroyo Hotel. Reservations have been made for 300 guests. B. J. Leonard, master of the fourth degree of the Knights of Columbus, is to be the toastmaster.

BEEES PICK ON AUTO FENDER

Swarm Seemingly Out For Vacation Select Car as Stopping Point

VENTURA, Aug. 13.—A swarm of bees flew over the city this morning and, when they finally decided to settle down, picked on the fender of a small delivery car parked on Main street. An oil driller coaxed the swarm into a box and carted them off. While the bees held up traffic for nearly an hour, no one reported being stung.

"DOKKIES" TO MEET IN VENTURA

Fall Ceremonial During Fair Week May Result in Knights of Pythias Day

VENTURA, Aug. 13.—This city will be host to Southern California members of the Dramatic Order of Knights of Khorassan, on the occasion of their fall ceremonial on September 15, it was announced today. Harry Moore, chairman of the committee on arrangements, with Adolph Zwirn and C. E. Kirk are in charge of the preparations.

The ceremonial will be held here during fall week, which is expected to attract an unusually large number of "Dokkies" and to prove an advantage to the fair, in return. The Board of Directors of the fair association are to be asked to make September 15 Knights of Pythias Day at the fair in honor of the visitors.

Besides the Pythians, who will be here from Yaman Temple, Santa Barbara, a large number are expected here from Al Borak Temple in Los Angeles. Members of the Dramatic Order of Knights of Khorassan are invited to be present on this occasion.

Child Digs Up Gold Dollars

CAMARILLO, Aug. 13.—The small daughter of Mr. and Mrs. J. Parks made a discovery in the Conejo district which at first nearly started a gold rush to the Conejo ranch. The child was digging in the dirt near her home when she saw something shining. It was bright and looked like money. She dug deeper and was rewarded by the discovery of nine gold dollars, pieces bearing dates of 1849 and 1850.

The old money was brought to the local bank for inspection and was put in a safe place. The girl is now back digging holes everywhere looking for more gold.

Two Hurt With Bone Fractures

ONTARIO, Aug. 13.—Two victims were in San Antonio Community Hospital today suffering fractured bones, one caused by an automobile crash, the other by picking pigs. Samuel Thompson, 62 West Riverside, riding with C. D. McNeill, also of West Riverside, received a fracture of the pelvis and several cracked ribs when their automobile was run into by another machine. The name of the driver of the car could not be learned. Joseph E. Boyd, 44 years of age, of Los Angeles, visiting at the home of a relative here, O. S. Rasmussen, climbed a ladder to pick pigs. He lost his balance and fell heavily on one hip, causing a fracture.

DOROTHY ADAMS MADE MUSIC INSTRUCTOR

HUNTINGTON PARK, Aug. 13.—Charles L. Johns, superintendent of the city school district, announces that Miss Dorothy P. Adams has been appointed instructor of music in the school to take the place vacated by the resignation of Mrs. Helen Richeberger. Other new teachers employed at the school for the coming school year are Miss M. Nelson of Blythe; Leonard A. Guiton of Orange, and Thomas P. Wood of Walnut Park.

MONROVIA PIONEER DIES AT HIS HOME

MONROVIA, Aug. 13.—Emberly Huffman, 88 years of age, and a prominent citizen of this city during the past twenty-eight years, died this morning at his home, 423 East Lemon street after a lingering illness. The deceased is survived by six brothers and one sister. Funeral services will be conducted at the Renaker Chapel at 2 p.m. Tuesday, the Rev. Pugh officiating. Interment will be at Live Oak Cemetery.

GLENDALE GROWTH LESS

Official Valuations for Last Year Show Smallest Advance Known, According to City Comptroller

GLENDALE, Aug. 13.—The figures showing the assessed valuation of the City of Glendale, as received today by H. C. Saulsbury, City Comptroller, from the County Assessor's office, show a total of \$74,059,380 before exemptions of \$1,738,005 are allowed, making a net total valuation of \$72,321,375.

The valuations for last year were \$71,723,615 and the increase for the present year of \$599,760 is said by Saulsbury to be the smallest advance Glendale has ever known in any fiscal year. The totals furnished by the County Assessor do not include the unsecured personal property and unsecured realty valuations, which will be released later. The assessments on money and solvent credits show an increase of

Wires Down, Traffic Obstructed, as Fifty Mile Gale Sweeps Florida

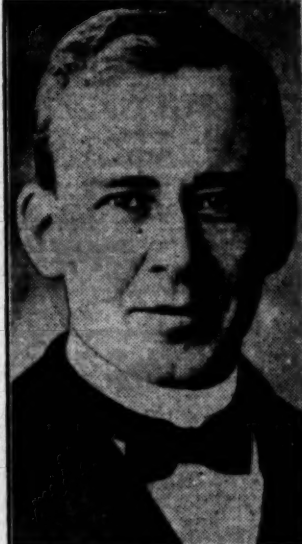

A Fifty-Mile Gale Accompanied by Heavy Downpours swept Florida last Wednesday, crippling wire communication, halting traffic and causing heavy property damage. Scores of giant shade trees were felled across the highways, as in the above case near Fort Pierce, obstructing traffic. (P. & A. photo.)

Hundreds of Telegraph Poles Were Tilted by the Force of the gales which swept the countryside, and in many cases wire communication was severed. This photo, taken near Vero Beach, illustrates the manner in which the poles were blown out of alignment at the height of the terrific sweep. (P. & A. photo.)

The Alarm Clock Which Awakened Lincoln every morning during his residence at Greenview, Ill., was sold at auction recently, together with other effects of the Emancipator. Miss Rachel McIlhenny is shown with the ancient timepiece at time of its sale. (P. & A. photo.)

"Apostle" J. M. Minturn will succeed Wilbur Glenn Voliva, noted exponent of a flat earth, when latter retires as head of Zion City sect. (P. & A. photo.)

Out For Hoover — Miss Mercedes Janet Hurst, young high school teacher of Peru, Ill., will organize college girls in interests of the Secretary. (P. & A. photo.)

African Leopard Skin will be popular this fall and winter, New York style experts aver. The coat above has collar and cuffs of fitch fur. (P. & A. photo.)

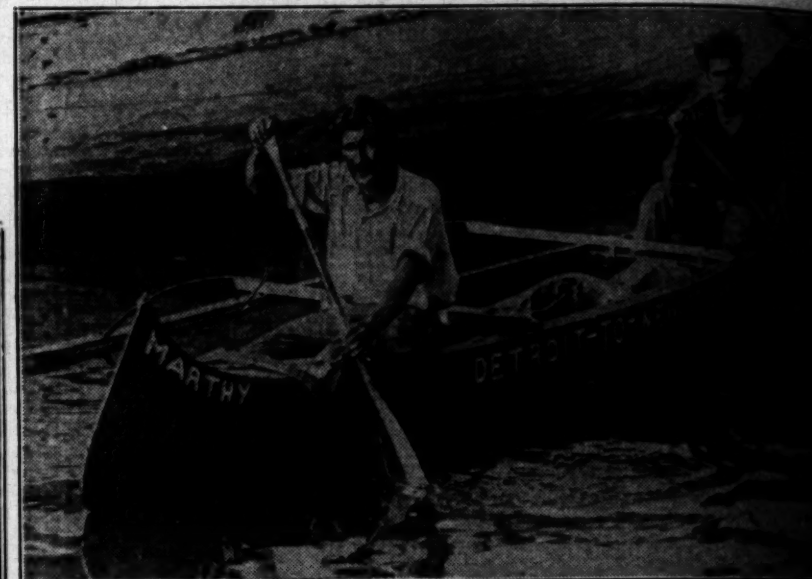

There's a Lot of Monkey Business in the Life of a Cub Bear—Here we have Ulysses, black bear cub who has gained considerable fame as the outstanding pest in Rainier National Park, performing a few monkey shines with the aid of a Douglas fir for the benefit of a party of tourists. He will shortly descend and collect from the audience. (P. & A. photo.)

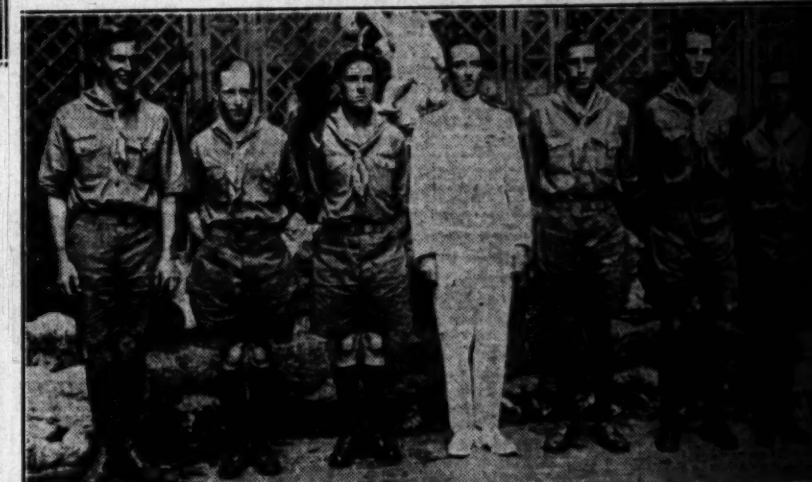

Air Mail Stamps to the Amount of \$104 were attached to shipment of emergency synchronized prints of "The Man Who Laughs" which arrived here yesterday by plane. The picture opens tomorrow at United Artists Theater. Miss Frances Selditz is here shown receiving film from pilot.

Cooking and Housework Were Banned in the "Adamless Eden" which wives set up for themselves near Streator, Ill. Men, children and dogs were barred, despite all of which most of the women returned to their homes at end of a few days, glad to get back into regular routine. Photo shows women lounging in their camp. (P. & A. photo.)

Showing No Signs of Fatigue at End of Their Forty-Day Canoe Journey, John James Sterner of Detroit docked a seventeen-foot canoe at New Orleans ten days ago. The brothers slept at night in the canoe, which is equipped with outrigger, as it drifted down the Ohio and Mississippi Rivers. Photo shows them at end of journey. (P. & A. photo.)

One of the Six Boy Scouts Pictured Above With Commander Richard Byrd and company the noted airman and explorer on his forthcoming Antarctic expedition. The six remained after elimination tests and examinations in which Scouts competed. The lucky youth will be selected within the next few days. Byrd plans to sail the 20th inst. (P. & A. photo.)

How the Bambino Looks as He Takes His Cuts at the American Agricultural moment before the big fellow started the ball on a ride against the right wall, the cameraman caught this unusual action photo of the premier hitter of the majors. Note how Babe is throwing all of his vast bulk into swing. (A. P. photo.)

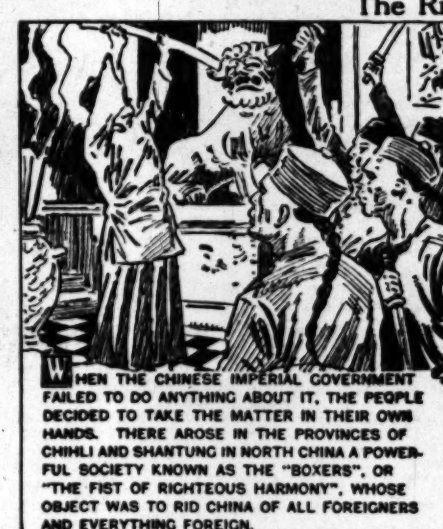

Where the Savant Tunney Will Take His Bride—This is the old-fashioned residence in Stamford, Ct., where Gene Tunney, lately heavyweight boxing champion of the world, will settle down to an erudite life following his marriage to Miss Mary Josephine Lauder, heiress. (P. & A. photo.)

OUR HISTORY IN PICTURES

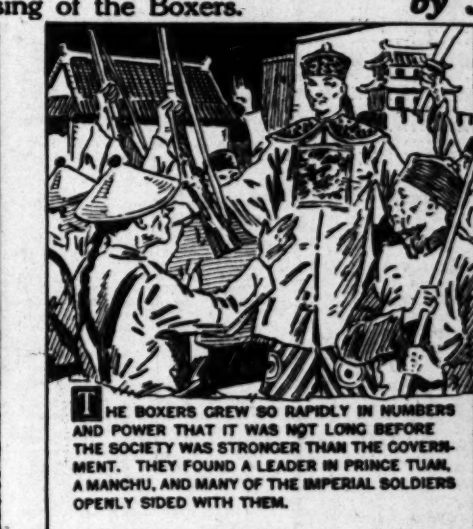

IN 1900 THE PEOPLE OF CHINA, OR SOME OF THEM, AWOKE TO THE FACT THAT BY LEASING PARTS OF THEIR COUNTRY TO THE MORE PROGRESSIVE NATIONS OR EUROPE, THEY HAD MADE THEMSELVES THE PREY OF FOREIGN DOMINATION, WHICH CONFLICTED WITH THEIR ANCIENT RELIGIOUS CUSTOMS, THEIR PATRIOTIC IDEALS AND THEIR BUSINESS INTERESTS.

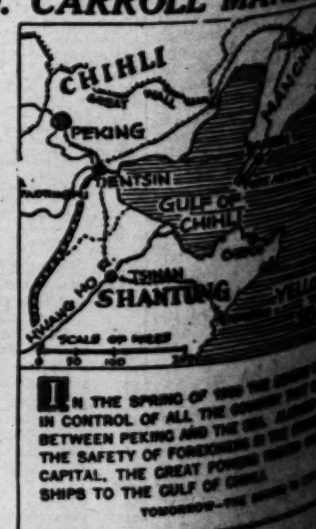

WHEN THE CHINESE IMPERIAL GOVERNMENT FAILED TO DO ANYTHING ABOUT IT, THE PEOPLE DECIDED TO TAKE THE MATTER IN THEIR OWN HANDS. THERE AROSE IN THE PROVINCES OF CHIHLI AND SHANTUNG IN NORTH CHINA A POWERFUL SOCIETY KNOWN AS THE "BOXERS," OR "THE FIST OF RIGHTEOUS HARMONY," WHOSE OBJECT WAS TO RID CHINA OF ALL FOREIGNERS AND EVERYTHING FOREIGN.

1106 The Story of the Boxer Rebellion.

THE BOXERS GREW SO RAPIDLY IN NUMBERS AND POWER THAT IT WAS NOT LONG BEFORE THE SOCIETY WAS STRONGER THAN THE GOVERNMENT. THEY FOUND A LEADER IN PRINCE TUAN, A MANCHU, AND MANY OF THE IMPERIAL SOLDIERS OPENLY SIDED WITH THEM.

by J. CARROLL MANSFIELD

IN THE SPRING OF 1900 THE GOVERNMENT WAS IN CONTROL OF ALL THE PROVINCES EXCEPT IN BETWEEN PEKING AND THE GULF OF CHINA. THE SAFETY OF FOREIGNERS IN THE GULF OF CHINA, THE GREAT PORT OF SHANTUNG, AND THE GULF OF CHINA, WAS IN DANGER.
